ABR DYNAMIC BLEND EQUITY & VOLATILITY FUND

A MESSAGE TO OUR SHAREHOLDERS (Unaudited)

JULY 31, 2018

Dear Shareholder,

ABR Dynamic Funds, LLC is pleased to review the performance of the ABR Dynamic Blend Equity & Volatility Fund (“ABRVX” or the “Fund”) from August 1, 2017 through July 31, 2018. During this period, the Institutional Shares of the Fund returned +8.45%.

The investment objective of the Fund is to seek investment results that correspond generally to the performance, before the Fund’s fees and expenses, of a benchmark index that measures the investment returns of a dynamic ratio of large-capitalization stocks and the volatility of large-capitalization stocks.

Under normal circumstances, the Fund will invest at least 80% of the value of its net assets (plus borrowing for investment purposes) in securities and instruments, including derivatives, that provide exposure to the constituents of the ABR Dynamic Blend Equity & Volatility Index Powered by Wilshire (“ABRVXX Index” or the “Index”). For purposes of this policy, the notional value of the Fund’s investments in derivative instruments that provide exposure to the constituents of the Index, may be counted toward satisfaction of the 80% policy. The Fund uses equities (via instruments that track the S&P 500® Total Return Index), equity volatility (via instruments that track the S&P 500® VIX Short-Term Futures Total Return Index – “SPVXSTR” Index), and cash (via cash instruments).

The Fund employs a rules-based strategy to determine an allocation among equities, equity volatility, and cash. The approach is designed to approximately match the allocations of the ABRVXX Index. The strategy’s exposure to volatility tends to increase in periods of relatively high volatility and decrease in periods of relatively low volatility. Although not guaranteed, these tendencies are designed to capture favorable volatility movements in turbulent markets while preserving positive performance during extended rising markets. If successful in this design, the strategy may serve as a useful source of diversification to equity markets over multiple market cycles.

During the past fiscal year, ABRVX gained 8.45%. Worth particular attention, in light of the strategy design described above, is the week of February 5 – 9, 2018. This was the week of “Volmageddon,” as it has come to be known in the media. During this week, the S&P 500 Index dropped 5.10% and volatility assets, measured by SPVXSTR, spiked 46.53%. ABRVX returned +6.03% in just this one week. This event demonstrated the strategy’s design in action and its diversifying value. Furthermore, it may serve as an indication of the strategy’s potential in longer-term, extended equity crises. As always, past performance is no guarantee of future results.

Overall, this past fiscal year was a very difficult time for many diversifying strategies. For example, the Morningstar Managed Futures Category Index (CSLABMF) was down 6.08%. ABRVX’s return of +8.45% and diversifying value described above were especially impressive in light of these conditions.

For more information on ABR Dynamic Funds, LLC, please visit our website: at www.abrfunds.com.

The return on and value of an investment in the mutual fund will fluctuate in response to market movements. Investments are subject to market risks, such as rapid increase or decrease in an investment value or liquidity, fluctuations in price due to economic conditions and other factors beyond the control of the Adviser. As with any mutual fund, there are risks involved with investing in the Fund, including the possible loss of principal. Other risks specific to the Fund are detailed in the prospectus. The Fund may be non-diversified, and fluctuations in individual holdings will have a greater impact on the Fund’s performance. The Fund may also invest in derivative instruments, and a small investment could have a large potential impact on the performance of the Fund. Future contracts have risks associated with index correlation, liquidity, default and margin. The Fund is not “actively” managed; passive management will not otherwise take defensive positions in declining markets unless such positions are reflected in the Index.

ABR DYNAMIC SHORT VOLATILITY FUND
A MESSAGE TO OUR SHAREHOLDERS (Unaudited)
JULY 31, 2018

Dear Shareholder,

ABR Dynamic Funds, LLC is pleased to review the performance of the ABR Dynamic Short Volatility Fund (“ABRSX” or the “Fund”) from inception (October 2, 2017) through July 31, 2018. During this period, the Institutional Shares of the Fund returned -21.24%.

The investment objective of the Fund is to seek long-term capital appreciation.

The Fund seeks to capitalize on the long-term historical downward trend of the price of CBOE Volatility Index (“VIX” Index) futures, while mitigating the effect of sudden price appreciation in VIX futures. The Fund will invest primarily in securities and derivative instruments for the purpose of gaining short exposure to VIX futures, long exposure to long-term U.S. Treasury bonds, and cash.

The Fund relies principally on a model to determine its allocations among short VIX futures, long U.S. treasuries, and cash. The model is measured by the ABR Enhanced Short Volatility Index Powered by Wilshire (“ABRXIV”). However, the Fund is not an index fund and may consider factors outside of the model when making investments decisions. In low volatility environments, the model typically targets a larger allocation to U.S. treasuries and a smaller allocation to short VIX futures. In medium volatility environments, the model typically targets a smaller allocation to U.S. treasuries and a larger allocation to short VIX futures. In high volatility environments, the model typically targets a smaller allocation to both, with a larger cash allocation. These targets are designed to facilitate the Fund Index’s intended capitalization on the long-term historical downward trend of VIX futures, while mitigating the loss from sudden spikes in VIX futures.

From inception through July 31, 2018, ABRSX lost 21.24%. Although it may sound odd to be pleased with a negative result, this performance was quite remarkable in light of the market conditions. On February 5, 2018, VIX futures spiked 96.11% as part of “Volmageddon,” as it has come to be known in the media. This event caused several other short volatility strategies to suffer catastrophic blowouts. However, in line with its targets, ABRSX significantly mitigated the loss of a sudden spike in VIX futures, losing only 30.24%. This loss of less than 1/3 the loss of VIX futures is analogous to an equity strategy which lost only 14% while the S&P 500 Index lost 45% in a crisis, which is quite impressive. Then, in only the short time from February 6 through the end of the fiscal year, ABRSX gained back 15.38%.

In short, the Fund weathered the massive, record spike in VIX futures and then quickly resumed capitalizing on the long-term historical downward trend of VIX futures, exactly as designed. As always, past performance is no guarantee of future results.

The return on and value of an investment in the mutual fund will fluctuate in response to market movements. Investments are subject to market risks, such as rapid increase or decrease in an investment value or liquidity, fluctuations in price due to economic conditions and other factors beyond the control of the Adviser. As with any mutual fund, there are risks involved with investing in the Fund, including the possible loss of principal. Other risks specific to the Fund are detailed in the prospectus. The Fund may be non-diversified, and fluctuations in individual holdings will have a greater impact on the Fund’s performance. The Fund may also invest in derivative instruments, and a small investment could have a large potential impact on the performance of the Fund. Future contracts have risks associated with index correlation, liquidity, default and margin. The Fund is not “actively” managed; passive management will not otherwise take defensive positions in declining markets unless such positions are reflected in the Index.

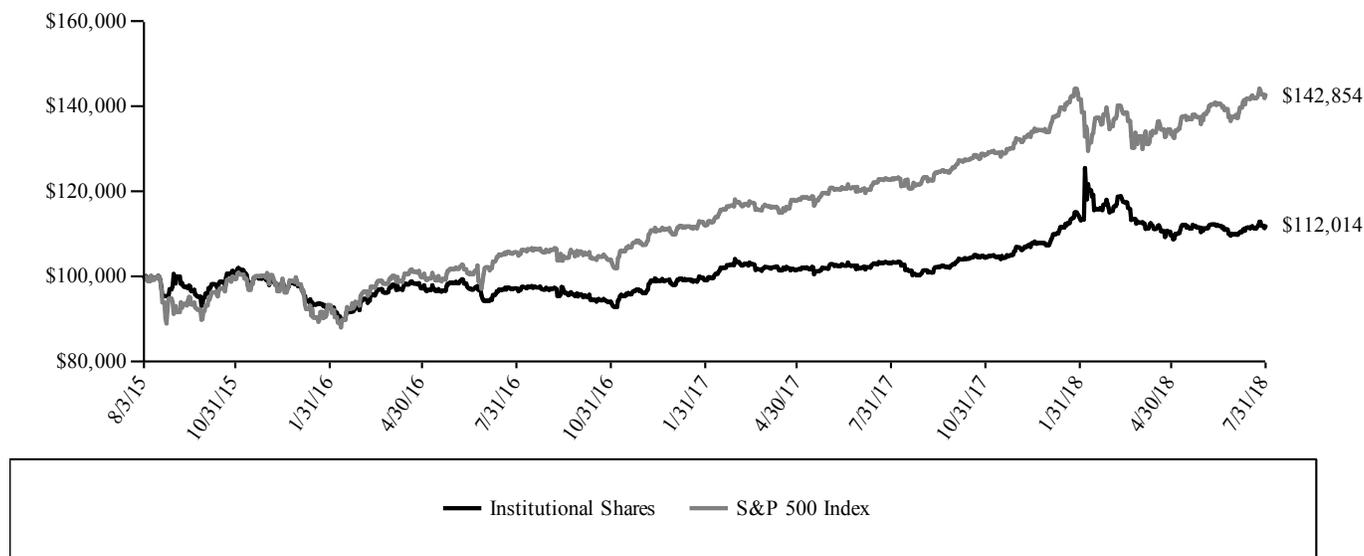

ABR DYNAMIC BLEND EQUITY & VOLATILITY FUND

PERFORMANCE CHART AND ANALYSIS (Unaudited)

JULY 31, 2018

The following chart reflects the change in the value of a hypothetical \$100,000 investment in Institutional Shares, including reinvested dividends and distributions, in the ABR Dynamic Blend Equity & Volatility Fund (the "Fund") compared with the performance of the benchmark, S&P 500 Index (the "S&P 500"), since inception. The S&P 500 is a broad-based measurement of the U.S. stock market based on the performance of 500 widely held large capitalization common stocks. The total return of the index includes the reinvestment of dividends and income. The total return of the Fund includes operating expenses that reduce returns, while the total return of the index does not include expenses. The Fund is professionally managed, while the index is unmanaged and is not available for investment.

**Comparison of Change in Value of a \$100,000 Investment
ABR Dynamic Blend Equity & Volatility Fund - Institutional Shares vs. S&P 500 Index**

Average Annual Total Returns

Periods Ended July 31, 2018

	One Year	Since Inception ⁽¹⁾
ABR Dynamic Blend Equity & Volatility Fund - Institutional Shares	8.45%	3.86%
ABR Dynamic Blend Equity & Volatility Fund - Investor Shares	7.67%	3.46%
S&P 500 Index	16.24%	12.65%

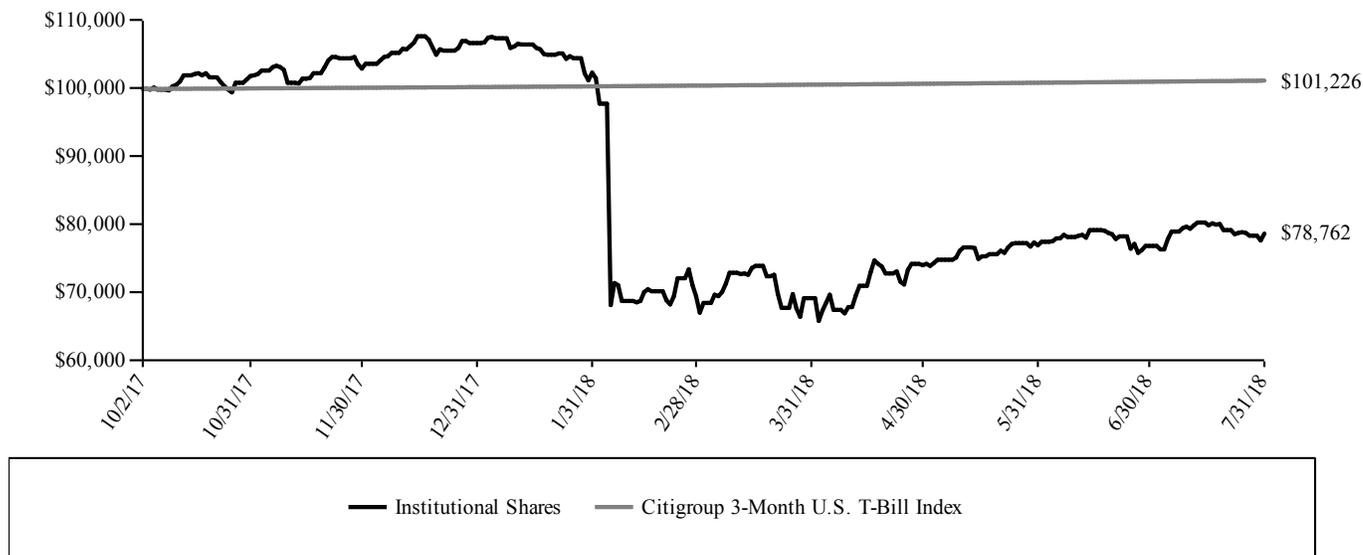

⁽¹⁾ Institutional Shares commenced operations on August 3, 2015 and Investor Shares commenced operations on August 14, 2015. The return shown for the S&P 500 Index is as of August 3, 2015.

Performance data quoted represents past performance and is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than original cost. As stated in the Fund's prospectus, the annual operating expense ratios (gross) for Institutional Shares and Investor Shares are 4.74% and 13.94%, respectively. However, the Fund's adviser has contractually agreed to waive its fee and/or reimburse Fund expenses to limit Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement (excluding all taxes, interest, portfolio transaction expenses, proxy expenses and extraordinary expenses) to 2.00% for Institutional Shares and 2.25% for Investor Shares, through November 30, 2019 (the "Expense Cap"). The adviser may be reimbursed by the Fund for fees waived and expenses reimbursed by the adviser pursuant to the Expense Cap if such payment is approved by the Board, made within three years of the fee waiver or expense reimbursement, and does not cause the Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement to exceed the lesser of (i) the then-current Expense Cap, or (ii) the Expense Cap in place at the time the fees/expenses were waived/reimbursed. During the period, certain fees were waived and/or expenses reimbursed; otherwise, returns would have been lower. The performance table and graph do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Returns greater than one year are annualized. For the most recent month-end performance and current fund prices, please call (855) 422-4518.

ABR DYNAMIC SHORT VOLATILITY FUND
PERFORMANCE CHART AND ANALYSIS (Unaudited)
JULY 31, 2018

The following chart reflects the change in the value of a hypothetical \$100,000 investment in Institutional Shares, including reinvested dividends and distributions, in the ABR Dynamic Short Volatility Fund (the “Fund”) compared with the performance of the benchmark, Citigroup 3-Month U.S. T-Bill Index, since inception. The Citigroup 3-Month U.S. T-Bill Index measures return equivalents of yield averages that are not marked to market and consists of the last three three-month Treasury bill month-end rates. The total return of the index includes the reinvestment of dividends and income. The total return of the Fund includes operating expenses that reduce returns, while the total return of the index does not include expenses. The Fund is professionally managed, while the index is unmanaged and is not available for investment.

ABR FUNDS

NOTES TO FINANCIAL STATEMENTS

JULY 31, 2018

Note 1. Organization

ABR Dynamic Blend Equity & Volatility Fund and ABR Dynamic Short Volatility Fund (individually, a “Fund” and collectively, the “Funds”) are non-diversified portfolios of Forum Funds II (the “Trust”). The Trust is a Delaware statutory trust that is registered as an open-end, management investment company under the Investment Company Act of 1940, as amended (the “Act”). Under its Trust Instrument, the Trust is authorized to issue an unlimited number of each Fund’s shares of beneficial interest without par value. Each Fund currently offers two classes of shares: Institutional Shares and Investor Shares. Institutional Shares and Investor Shares commenced operations on August 3, 2015, and August 14, 2015, respectively, for the ABR Dynamic Blend Equity and Volatility Fund, and October 2, 2017 and October 11, 2017, respectively, for the ABR Dynamic Short Volatility Fund. The ABR Dynamic Blend Equity and Volatility Fund’s investment objective is to seek investment results that correspond generally to the performance, before the Fund’s fees and expenses, of a benchmark index that measures the investment returns of a dynamic ratio of large-capitalization stocks and the volatility of large-capitalization stocks. The ABR Dynamic Short Volatility Fund’s investment objective is to seek long-term capital appreciation.

Note 2. Summary of Significant Accounting Policies

The Funds are investment companies and follows accounting and reporting guidance under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946, “Financial Services-Investment Companies”. These financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”), which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities at the date of the financial statements, and the reported amounts of increases and decreases in net assets from operations during the fiscal period. Actual amounts could differ from those estimates. The following summarizes the significant accounting policies of each Fund:

Security Valuation – Securities are valued at market prices using the last quoted trade or official closing price from the principal exchange where the security is traded, as provided by independent pricing services on each Fund business day. In the absence of a last trade, securities are valued at the mean of the last bid and ask price provided by the pricing service. Futures contracts are valued at the day’s settlement price on the exchange where the contract is traded. Shares of non-exchange traded open-end mutual funds are valued at net asset value (“NAV”). Short-term investments that mature in sixty days or less may be valued at amortized cost.

Each Fund values its investments at fair value pursuant to procedures adopted by the Trust’s Board of Trustees (the “Board”) if (1) market quotations are not readily available or (2) the Adviser, as defined in Note 4, believes that the values available are unreliable. The Trust’s Valuation Committee, as defined in each Fund’s registration statement, performs certain functions as they relate to the administration and oversight of each Fund’s valuation procedures. Under these procedures, the Valuation Committee convenes on a regular and ad hoc basis to review such investments and considers a number of factors, including valuation methodologies and significant unobservable inputs, when arriving at fair value.

The Valuation Committee may work with the Adviser to provide valuation inputs. In determining fair valuations, inputs may include market-based analytics that may consider related or comparable assets or liabilities, recent transactions, market multiples, book values and other relevant investment information. Adviser inputs may include an income-based approach in which the anticipated future cash flows of the investment are discounted in determining fair value. Discounts may also be applied based on the nature or duration of any restrictions on the disposition of the investments. The Valuation Committee performs regular reviews of valuation methodologies, key inputs and assumptions, disposition analysis and market activity.

Fair valuation is based on subjective factors and, as a result, the fair value price of an investment may differ from the security’s market price and may not be the price at which the asset may be sold. Fair valuation could result in a different NAV than a NAV determined by using market quotes.

GAAP has a three-tier fair value hierarchy. The basis of the tiers is dependent upon the various “inputs” used to determine the value of each Fund’s investments. These inputs are summarized in the three broad levels listed below:

Level 1 - Quoted prices in active markets for identical assets and liabilities.

Level 2 - Prices determined using significant other observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Short-term securities with maturities of sixty days or less are valued at amortized cost, which approximates market value, and are categorized as Level 2 in the hierarchy. Municipal securities, long-term U.S. government obligations

ABR FUNDS

NOTES TO FINANCIAL STATEMENTS

JULY 31, 2018

and corporate debt securities are valued in accordance with the evaluated price supplied by the pricing service and generally categorized as Level 2 in the hierarchy. Other securities that are categorized as Level 2 in the hierarchy include, but are not limited to, warrants that do not trade on an exchange, securities valued at the mean between the last reported bid and ask quotation and international equity securities valued by an independent third party with adjustments for changes in value between the time of the securities respective local market closes and the close of the U.S. market.

Level 3 - Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

The aggregate value by input level, as of July 31, 2018, for each Fund's investments is included in each Fund's Schedule of Investments.

Security Transactions, Investment Income and Realized Gain and Loss – Investment transactions are accounted for on the trade date. Dividend income is recorded on the ex-dividend date. Foreign dividend income is recorded on the ex-dividend date or as soon as possible after determining the existence of a dividend declaration after exercising reasonable due diligence. Income and capital gains on some foreign securities may be subject to foreign withholding taxes, which are accrued as applicable. Interest income is recorded on an accrual basis. Premium is amortized and discount is accreted using the effective interest method. Identified cost of investments sold is used to determine the gain and loss for both financial statement and federal income tax purposes.

Futures Contracts – Each Fund may purchase futures contracts to gain exposure to market changes, which may be more efficient or cost effective than actually buying the securities. A futures contract is an agreement between parties to buy or sell a security at a set price on a future date. Upon entering into such a contract, a fund is required to pledge to the broker an amount of cash, U.S. Government obligations or other high-quality debt securities equal to the minimum “initial margin” requirements of the exchange on which the futures contract is traded. Pursuant to the contract, the fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as “variation margin” and are recorded by the fund as unrealized gains or losses. When the contract is closed, the fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and value at the time it was closed. Risks of entering into futures contracts include the possibility that there may be an illiquid market and that a change in the value of the contract may not correlate with changes in the value of the underlying securities.

Notional amounts of each individual futures contract outstanding as of July 31, 2018, for each Fund, are disclosed in the Schedules of Investments.

Distributions to Shareholders – Each Fund declares any dividends from net investment income and pays them annually. Any net capital gains realized by the Funds are distributed at least annually. Distributions to shareholders are recorded on the ex-dividend date. Distributions are based on amounts calculated in accordance with applicable federal income tax regulations, which may differ from GAAP. These differences are due primarily to differing treatments of income and gain on various investment securities held by each Fund, timing differences and differing characterizations of distributions made by each Fund.

Federal Taxes – Each Fund intends to continue to qualify each year as a regulated investment company under Subchapter M of Chapter 1, Subtitle A, of the Internal Revenue Code of 1986, as amended (“Code”), and to distribute all of their taxable income to shareholders. In addition, by distributing in each calendar year substantially all of their net investment income and capital gains, if any, the Funds will not be subject to a federal excise tax. Therefore, no federal income or excise tax provision is required. Each Fund will file a U.S. federal income and excise tax return as required. Each Fund's federal income tax returns are subject to examination by the Internal Revenue Service for a period of three fiscal years after they are filed. As of July 31, 2018, there are no uncertain tax positions that would require financial statement recognition, de-recognition or disclosure.

Income and Expense Allocation – The Trust accounts separately for the assets, liabilities and operations of each of its investment portfolios. Expenses that are directly attributable to more than one investment portfolio are allocated among the respective investment portfolios in an equitable manner.

The Funds' class-specific expenses are charged to the operations of that class of shares. Income and expenses (other than expenses attributable to a specific class) and realized and unrealized gains or losses on investments are allocated to each class of shares based on the class' respective net assets to the total net assets of each Fund.

Commitments and Contingencies – In the normal course of business, each Fund enters into contracts that provide general indemnifications by each Fund to the counterparty to the contract. Each Fund's maximum exposure under these arrangements is dependent on future

ABR FUNDS

NOTES TO FINANCIAL STATEMENTS

JULY 31, 2018

claims that may be made against each Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote. Each Fund has determined that none of these arrangements requires disclosure on each Fund's balance sheet.

Offering Costs – Offering costs for the ABR Dynamic Short Volatility Fund of \$19,401 consisted of fees related to the mailing and printing of the initial prospectus, certain startup legal costs, and initial registration filings. Such costs are amortized over a twelve-month period beginning with the commencement of operations of the ABR Dynamic Short Volatility Fund.

Note 3. Cash – Concentration in Uninsured Account

For cash management purposes, each Fund may concentrate cash with each Fund's custodian. This typically results in cash balances exceeding the Federal Deposit Insurance Corporation ("FDIC") insurance limits. As of July 31, 2018, the ABR Dynamic Blend Equity & Volatility Fund had \$21,702,929 at MUFG Union Bank, N.A. that exceeded the FDIC insurance limit.

Note 4. Fees and Expenses

Investment Adviser – ABR Dynamic Funds, LLC (the "Adviser") is the investment adviser to the Funds. Pursuant to an investment advisory agreement, the Adviser receives an advisory fee, payable monthly, at an annual rate of 1.75% and 2.50% of the average daily net assets of the ABR Dynamic Blend Equity & Volatility Fund and ABR Dynamic Short Volatility Fund, respectively.

Distribution – Foreside Fund Services, LLC serves as each Fund's distributor (the "Distributor"). The Funds have adopted a Distribution Plan (the "Plan") in accordance with Rule 12b-1 of the Act. Under the Plan, each Fund may pay the Distributor and/or any other entity as authorized by the Board a fee of up to 0.25% of each Fund's average daily net assets of Investor Shares for providing distribution and/or shareholder services to the Funds. The Distributor is not affiliated with the Adviser or Atlantic Fund Administration, LLC (d/b/a Atlantic Fund Services) ("Atlantic") or their affiliates.

Other Service Providers – Atlantic provides fund accounting, fund administration, compliance and transfer agency services to each Fund. The fees related to these services are included in Fund services fees within the Statement of Operations. Atlantic also provides certain shareholder report production and EDGAR conversion and filing services. Pursuant to an Atlantic services agreement, each Fund pays Atlantic customary fees for its services. Atlantic provides a Principal Executive Officer, a Principal Financial Officer, a Chief Compliance Officer and an Anti-Money Laundering Officer to each Fund, as well as certain additional compliance support functions.

Trustees and Officers – The Trust pays each Independent Trustee an annual fee of \$16,000 (\$21,000 for the Chairman) for service to the Trust. The Independent Trustees and Chairman may receive additional fees for special Board meetings. The Independent Trustees are also reimbursed for all reasonable out-of-pocket expenses incurred in connection with their duties as Trustees, including travel and related expenses incurred in attending Board meetings. The amount of Independent Trustees' fees attributable to each Fund is disclosed in the Statement of Operations. Certain officers of the Trust are also officers or employees of the above named service providers, and during their terms of office received no compensation from each Fund.

Note 5. Expenses Reimbursed and Fees Waived

The Adviser has contractually agreed to waive its fee and/or reimburse Fund expenses to limit Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement (excluding all taxes, interest, portfolio transaction expenses, proxy expenses and extraordinary expenses) to 2.00% for Institutional Shares and 2.25% for Investor Shares of the ABR Dynamic Blend Equity & Volatility Fund and 2.50% for Institutional Shares and 2.75% for Investor Shares of the ABR Dynamic Short Volatility Fund, through at least November 30, 2019. Other Fund service providers have voluntarily agreed to waive and reimburse a portion of their fees. These voluntary fee waivers and reimbursements may be reduced or eliminated at any time. For the period ended July 31, 2018, fees waived and expenses reimbursed were as follows:

	<u>Investment Adviser Fees Waived</u>	<u>Investment Adviser Expenses Reimbursed</u>	<u>Other Waivers</u>	<u>Total Fees Waived and Expenses Reimbursed</u>
ABR Dynamic Blend Equity & Volatility Fund	\$ 148,341	\$ -	\$ 30,944	\$ 179,285
ABR Dynamic Short Volatility Fund	53,442	80,239	22,791	156,472

ABR FUNDS

NOTES TO FINANCIAL STATEMENTS

JULY 31, 2018

The Adviser may be reimbursed by each Fund for fees waived and expenses reimbursed by the Adviser pursuant to the Expense Cap if such payment is approved by the Board, made within three years of the fee waiver or expense reimbursement, and does not cause the Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement to exceed the lesser of (i) the then-current expense cap, or (ii) the expense cap in place at the time the fees/expenses were waived/reimbursed. As of July 31, 2018, \$534,180 and \$133,681 is subject to recapture by the Adviser for the ABR Dynamic Blend Equity and Volatility Fund and ABR Dynamic Short Volatility Fund, respectively. Other Waivers are not eligible for recoupment.

Note 6. Security Transactions

The cost of purchases and proceeds from sales of investment securities (including maturities), other than short-term investments, during the period ended July 31, 2018, were as follows:

	<u>U.S. Government Obligations</u>	
	<u>Purchases</u>	<u>Sales</u>
ABR Dynamic Blend Equity & Volatility Fund	\$ —	\$ —
ABR Dynamic Short Volatility Fund	15,511,995	11,848,996
	<u>Non-U.S. Government Obligations</u>	
	<u>Purchases</u>	<u>Sales</u>
ABR Dynamic Blend Equity & Volatility Fund	\$ —	\$ —
ABR Dynamic Short Volatility Fund	3,923	3,146

Note 7. Summary of Derivative Activity

The volume of open derivative positions may vary on a daily basis as each Fund transacts derivative contracts in order to achieve the exposure desired by the Adviser. The total value of transactions for the period ended July 31, 2018, for any derivative type that was held is as follows:

	<u>ABR Dynamic Blend Equity & Volatility Fund</u>	<u>ABR Dynamic Short Volatility Fund</u>
Futures Contracts	\$ 249,317,834	\$ 14,279,560

Each Fund's use of derivatives during the period ended July 31, 2018, was limited to futures contracts.

Realized and unrealized gains and losses on derivatives contracts during the period ended July 31, 2018, by each Fund are recorded in the following locations on the Statement of Operations:

ABR Dynamic Blend Equity & Volatility Fund

<u>Location:</u>	<u>Equity Contracts</u>
Net realized gain (loss) on:	
Futures	\$ 1,648,851
Total net realized gain (loss)	<u>\$ 1,648,851</u>
Net change in unrealized appreciation (depreciation) on:	
Futures	\$ 183,022
Total net change in unrealized appreciation (depreciation)	<u>\$ 183,022</u>

ABR Dynamic Short Volatility Fund

<u>Location:</u>	<u>Equity Contracts</u>
Net realized gain (loss) on:	
Futures	\$ 365,149
Total net realized gain (loss)	<u>\$ 365,149</u>
Net change in unrealized appreciation (depreciation) on:	
Futures	\$ 94,311
Total net change in unrealized appreciation (depreciation)	<u>\$ 94,311</u>

ABR FUNDS

NOTES TO FINANCIAL STATEMENTS

JULY 31, 2018

Note 8. Federal Income Tax

As of July 31, 2018, the cost of investments and components of net unrealized appreciation (depreciation) were as follows:

	<u>Tax Cost of Investments</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Depreciation</u>
ABR Dynamic Blend Equity & Volatility Fund	\$ 0	\$ 0	\$ 0	\$ 0
ABR Dynamic Short Volatility Fund	3,689,207	25,410	(65,666)	(40,256)

Distributions paid during the fiscal periods ended as noted were characterized for tax purposes as follows:

	<u>Ordinary Income</u>	<u>Long-Term Capital Gain</u>	<u>Total</u>
ABR Dynamic Blend Equity & Volatility Fund			
2018	\$ 234,658	\$ 393,061	\$ 627,719
2017	24,050	-	24,050
ABR Dynamic Short Volatility Fund			
2018	687	3,153	3,840

As of July 31, 2018, distributable earnings (accumulated loss) on a tax basis for the Funds were as follows:

	<u>Undistributed Ordinary Income</u>	<u>Undistributed Long-Term Gain</u>	<u>Unrealized Depreciation</u>	<u>Total</u>
ABR Dynamic Blend Equity & Volatility Fund	\$ 373,673	\$ 932,170	\$ -	\$ 1,305,843
ABR Dynamic Short Volatility Fund	193,531	271,542	(40,256)	424,817

The difference between components of distributable earnings on a tax basis and the amounts reflected in the Statements of Assets and Liabilities are primarily due to futures mark-to-market and wash sales.

On the Statements of Assets and Liabilities, as a result of permanent book to tax differences, certain amounts have been reclassified for the period ended July 31, 2018. The following reclassifications were the result of partnership sales, K-1 income and net operating losses offsetting short-term gains, and have no impact on the net assets of the Funds.

	<u>Undistributed Net Investment Income</u>	<u>Accumulated Net Realized Gain</u>
ABR Dynamic Blend Equity & Volatility Fund	\$ 339,055	\$ (339,055)
ABR Dynamic Short Volatility Fund	17,472	(17,472)

Note 9. Recent Accounting Pronouncements

In March 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-08, Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. The amendments in the ASU shorten the amortization period for certain callable debt securities, held at a premium, to be amortized to the earliest call date. The ASU does not require an accounting change for securities held at a discount; which continues to be amortized to maturity. The ASU is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2018. Management is currently evaluating the impact, if any, of applying this provision.

In August 2018, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2018-13 “Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement” (“ASU 2018-13”) which includes amendments intended to improve the effectiveness of disclosures in the notes to financial statements. For example, ASU 2018-13 includes additional disclosures regarding the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and clarifications to the narrative description of measurement uncertainty disclosures. ASU 2018-13 is effective for interim and annual periods beginning after December 15, 2019. Management is currently evaluating the impact that ASU 2018-13 will have on the Funds' financial statements and related disclosures.

Note 10. Subsequent Events

Subsequent events occurring after the date of this report through the date these financial statements were issued have been evaluated for potential impact, and each Fund has had no such events.

REPORT OF INDEPENDENT REGISTERED ACCOUNTING FIRM

To the Board of Trustees of Forum Funds II and the Shareholders of
ABR Dynamic Blend Equity & Volatility Fund and ABR Dynamic Short Volatility Fund

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of ABR Dynamic Blend Equity & Volatility Fund and ABR Dynamic Short Volatility Fund, each a series of shares of beneficial interest in Forum Funds II (the “Funds”), including the schedules of investments, as of July 31, 2018, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended and the financial highlights for each of the years and periods in the period August 3, 2015 (commencement of operations) through July 31, 2018 for the ABR Dynamic Blend Equity & Volatility Fund. In addition, we have audited the statements of operations and changes in net assets and the financial highlights for the period from October 2, 2017 (commencement of operations) through July 31, 2018 for the ABR Dynamic Short Volatility Fund. We have also audited the related notes (collectively we refer to the above statements and notes as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Funds presented as of July 31, 2018, and the results of their operations for the year or period then ended, the changes in their net assets for each of the years or period in the two-year period then ended and their financial highlights for each of the years or periods presented, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Funds’ management. Our responsibility is to express an opinion on the Funds’ financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities law and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Funds’ internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risk of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of July 31, 2018 by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

BBD, LLP

BBD, LLP

We have served as the auditor of one or more of the Funds in the Forum Funds II since 2013.

ADDITIONAL INFORMATION (Unaudited)

JULY 31, 2018

Investment Advisory Agreement Approval

At the June 15, 2018 Board meeting (the “June meeting”), the Board, including the Independent Trustees, met in person and considered the approval of the continuance of the investment advisory agreement between the Adviser and the Trust pertaining to the ABR Dynamic Blend Equity & Volatility Fund (the “Advisory Agreement”). In preparation for the June meeting, the Board was presented with a range of information to assist in its deliberations. The Board requested and reviewed written responses from the Adviser to a letter circulated on the Board's behalf concerning the Adviser’s personnel, operations, financial condition, performance, compensation and services provided to the ABR Dynamic Blend Equity & Volatility Fund by the Adviser. During its deliberations, the Board received an oral presentation from the Adviser and discussed the materials with the Adviser, independent legal counsel to the Independent Trustees (“Independent Legal Counsel”), and, as necessary, with the Trust's administrator, Atlantic Fund Services. The Independent Trustees also met in executive session with Independent Legal Counsel while deliberating.

At the June meeting, the Board reviewed, among other matters, the topics discussed below.

Nature, Extent & Quality of Services

Based on written materials received and the presentation from personnel of the Adviser regarding the operations of the Adviser, the Board considered the quality of services provided by the Adviser under the Advisory Agreement. In this regard, the Board considered information regarding the experience, qualifications and professional background of the portfolio managers and other personnel at the Adviser with principal responsibility for the ABR Dynamic Blend Equity & Volatility Fund, as well as the investment philosophy and decision-making process of those professionals and the capability and integrity of the Adviser’s senior management and staff.

The Board considered also the adequacy of the Adviser’s resources and noted the Adviser’s representations that the firm is financially stable and has the operational capability and the necessary staffing and experience to continue providing quality investment advisory services to the ABR Dynamic Blend Equity & Volatility Fund. Based on the presentation and the materials provided by the Adviser in connection with the Board’s consideration of the approval of the Advisory Agreement, and other relevant considerations, the Board concluded that, overall, it was satisfied with the nature, extent and quality of services provided to the ABR Dynamic Blend Equity & Volatility Fund under the Advisory Agreement.

Performance

The Board reviewed the performance of the ABR Dynamic Blend Equity & Volatility Fund compared to its primary benchmark and compared to independent peer groups of funds identified by Broadridge Financial Solutions, Inc. (“Broadridge”) believed to have characteristics similar to those of the ABR Dynamic Blend Equity & Volatility Fund. The Board observed that the ABR Dynamic Blend Equity & Volatility Fund underperformed its primary benchmark index, the S&P 500 Index, for the one-year period ended March 31, 2018 and for the period since the ABR Dynamic Blend Equity & Volatility Fund’s inception on August 3, 2015. The Board noted the Adviser’s representation that the primary benchmark index was not necessarily an optimal representative comparison of the ABR Dynamic Blend Equity & Volatility Fund’s performance due to the unique nature of the ABR Dynamic Blend Equity & Volatility Fund’s investment strategy. At the Adviser’s request, the Board considered the ABR Dynamic Blend Equity & Volatility Fund’s performance against that of the CBOE Eureka hedge Long Volatility Index (the “Comparable Index”), which was believed by the Adviser to serve as a more representative comparative benchmark for the ABR Dynamic Blend Equity & Volatility Fund because the constituents of the Comparable Index employ investment strategies that take a net long view on implied volatility with a goal of positive absolute return, similar to the ABR Dynamic Blend Equity & Volatility Fund. The Board observed that the ABR Dynamic Blend Equity & Volatility Fund outperformed the Comparable Index for the one-year period ended March 31, 2018.

The Board also observed that the ABR Dynamic Blend Equity & Volatility Fund performed at the median of its Broadridge peers for the one-year period ended March 31, 2018. The Board noted the Adviser’s representation that the unique nature of the ABR Dynamic Blend Equity & Volatility Fund’s investment strategy resulted in a limited universe of peer funds and that the peer funds identified by Broadridge were not believed to provide an optimal comparison due to the peer funds’ low correlation to the holdings in the ABR Dynamic Blend Equity & Volatility Fund’s portfolio and the differences in the peer funds’ approaches to managing volatility in the investment strategies employed. At the request of the Adviser, the Board compared the performance of the ABR Dynamic Blend Equity & Volatility Fund to a group of funds identified by the Adviser as having characteristics more closely aligned to those of the ABR Dynamic Blend Equity & Volatility Fund (the “Comparable Peers”) and observed that the ABR Dynamic Blend Equity & Volatility Fund outperformed the Comparable Peers for the one-year period ended March 31, 2018. The Board also noted the Adviser’s representation that the ABR Dynamic Blend Equity & Volatility Fund performed in line with the Adviser’s expectations during the periods of heightened market

ABR FUNDS

ADDITIONAL INFORMATION (Unaudited)

JULY 31, 2018

volatility in the first quarter of 2018, which demonstrated the effectiveness of the ABR Dynamic Blend Equity & Volatility Fund's investment strategy during market volatility. Based on the foregoing and other relevant considerations, the Board concluded that the Adviser's management of the ABR Dynamic Blend Equity & Volatility Fund could benefit the ABR Dynamic Blend Equity & Volatility Fund and its shareholders.

Compensation

The Board evaluated the Adviser's compensation for providing advisory services to the ABR Dynamic Blend Equity & Volatility Fund and analyzed comparative information on actual advisory fee rates and actual total expenses of the ABR Dynamic Blend Equity & Volatility Fund's Broadridge peer group. The Board noted that the Adviser's actual advisory fee rate was less than the median of its Broadridge peers and the actual total expenses for the ABR Dynamic Blend Equity & Volatility Fund were higher than the median of its Broadridge peers. The Board noted the Adviser's representation that the Broadridge peers were not the most optimal comparison from a fee and expense perspective and, at the Adviser's request, the Board compared the fees and expense of the ABR Dynamic Blend Equity & Volatility Fund to the Comparable Peers, noting that the ABR Dynamic Blend Equity & Volatility Fund's fees and expenses were each less than the median of the Comparable Peers. Based on the foregoing, and other relevant considerations, the Board concluded that the Adviser's advisory fee rate to be charged to the ABR Dynamic Blend Equity & Volatility Fund was reasonable.

Cost of Services and Profitability

The Board considered information provided by the Adviser regarding the costs of services and its profitability with respect to the ABR Dynamic Blend Equity & Volatility Fund. In this regard, the Board considered the Adviser's resources devoted to the ABR Dynamic Blend Equity & Volatility Fund in the aggregate, as well as the Adviser's discussion of the aggregate costs and profitability of its mutual fund activities. The Board noted the Adviser's representation that it continued to waive its entire advisory fee as necessary to ensure the ABR Dynamic Blend Equity & Volatility Fund's expenses did not exceed the contractual expense cap. Based on these and other applicable considerations, the Board concluded that the Adviser's profits attributable to management of the ABR Dynamic Blend Equity & Volatility Fund did not appear unreasonably high in light of the nature, extent and quality of the services provided by the Adviser.

Economies of Scale

The Board considered whether the ABR Dynamic Blend Equity & Volatility Fund would benefit from any economies of scale. In this respect, the Board noted that the Adviser did not have breakpoints in its advisory fee, and the Board further noted the Adviser's discussions in this regard. Based on the foregoing information, the Board concluded that economies of scale were not a material factor in approving the Advisory Agreement with respect to the ABR Dynamic Blend Equity & Volatility Fund.

Other Benefits

The Board noted the Adviser's representation that, aside from its contractual advisory fees, it does not benefit in a material way from its relationship with the ABR Dynamic Blend Equity & Volatility Fund. Based on the foregoing representation, the Board concluded that other benefits received by the Adviser from its relationship with the ABR Dynamic Blend Equity & Volatility Fund were not a material factor in approving the continuation of the Advisory Agreement.

Conclusion

The Board did not identify any single factor as being of paramount importance, and different Trustees may have given different weight to different factors. The Board reviewed a memorandum from Fund/Trustee Counsel discussing the legal standards applicable to its consideration of the Advisory Agreement. Based on its review, including consideration of each of the factors referenced above, the Board determined, in the exercise of its reasonable business judgment, that the advisory arrangement, as outlined in the Advisory Agreement, was fair and reasonable in light of the services performed or to be performed, expenses incurred or to be incurred and such other matters as the Board considered relevant.

Proxy Voting Information

A description of the policies and procedures that each Fund uses to determine how to vote proxies relating to securities held in each Fund's portfolio is available, without charge and upon request, by calling (855) 422-4518 and on the SEC's website at www.sec.gov.

ABR FUNDS

Each Fund's proxy voting record for the most recent twelve-month period ended June 30 is available, without charge and upon request, by calling (855) 422-4518 and on the SEC's website at www.sec.gov.

Availability of Quarterly Portfolio Schedules

Each Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. These filings are available, without charge and upon request on the SEC's website at www.sec.gov or may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

Shareholder Expense Example

As a shareholder of the Funds, you incur ongoing costs, including management fees, distribution and/or service (12b-1) fees (for Investor Shares only) and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from February 1, 2018 through July 31, 2018.

Actual Expenses – The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during the period.

Hypothetical Example for Comparison Purposes – The second line of the table below provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not each Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in each Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only. Therefore, the second line of the table is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds.

	Beginning Account Value February 1, 2018	Ending Account Value July 31, 2018	Expenses Paid During Period*	Annualized Expense Ratio*
ABR Dynamic Blend Equity & Volatility Fund				
Institutional Shares				
Actual	\$ 1,000.00	\$ 983.35	\$ 9.84	2.00%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,014.88	\$ 9.99	2.00%
Investor Shares				
Actual	\$ 1,000.00	\$ 978.59	\$ 11.04	2.25%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,013.64	\$ 11.23	2.25%
ABR Dynamic Short Volatility Fund				
Institutional Shares				
Actual	\$ 1,000.00	\$ 769.23	\$ 10.97	2.50%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,012.40	\$ 12.47	2.50%
Investor Shares				
Actual	\$ 1,000.00	\$ 769.01	\$ 12.06	2.75%
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,011.16	\$ 13.71	2.75%

* Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half-year (181) divided by 365 to reflect the half-year period.
