SUMMARY SECTION - ABR 75/25 VOLATILITY FUND

Investment Objective

The ABR 75/25 Volatility Fund (the “Fund”) seeks long-term capital appreciation.

Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)	Institutional Shares	Investor Shares
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of the offering price)	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of the offering price)	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and Distributions (as a percentage of the offering price)	None	None
Redemption Fee (as a percentage of amount redeemed, if applicable)	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)		
Management Fees	2.50%	2.50%
Distribution and/or Service (12b-1) Fees	None	0.25%
Other Expenses ⁽¹⁾	0.75%	1.37%
Total Annual Fund Operating Expenses	3.25%	4.12%
Fee Waiver and/or Expense Reimbursement ⁽²⁾	(1.50)%	(2.12)%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	1.75%	2.00%

⁽¹⁾ “Other Expenses” are based on estimated amounts expected to be incurred for the current fiscal year.

⁽²⁾ ABR Dynamic Funds, LLC (the “Adviser”) has contractually agreed to waive its fee and/or reimburse Fund expenses to limit Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement (excluding all taxes, interest, portfolio transaction expenses, proxy expenses and extraordinary expenses) of Institutional Shares and Investor Shares to 1.75% and 2.00%, respectively, through at least November 30, 2021 (“Expense Cap”). The Expense Cap may only be raised or eliminated with the consent of the Board of Trustees. The Adviser may recoup from the Fund fees waived and expenses reimbursed by the Adviser pursuant to the Expense Cap if such recoupment is approved by the Board, made within three years of the fee waiver or expense reimbursement, and does not cause the Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement of a class (after the recoupment has been taken into account) to exceed the lesser of (i) the then-current expense cap, and (ii) the expense cap in place at the time the fees/expenses were waived/reimbursed.

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then hold or redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same, except that it reflects the Expense Cap through the time periods described above. Although your actual costs may be higher or lower, based on these assumptions, whether you do or do not redeem your shares at the end of each period described below, your costs would be:

	1 Year	3 Years
Institutional Shares	\$178	\$711
Investor Shares	\$203	\$851

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes

when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. Portfolio turnover rate is not provided because, as of the date of this Prospectus, the Fund had not yet completed its first fiscal year.

Principal Investment Strategies

Employing a proprietary investment model, the Fund's adviser, ABR Dynamic Funds, LLC (the "Adviser"), invests the Fund's assets primarily in securities and derivative instruments that, to varying degrees, provide (i) long exposure to CBOE Volatility Index ("VIX Index") futures and exchange-traded products ("ETPs"); (ii) short exposure to VIX Index futures and ETPs; (iii) long exposure to S&P 500 Index futures and ETPs; (iv) long exposure to long-term U.S. Treasury securities; and (v) cash. For purposes of this policy, ETPs include exchange-traded funds and exchange-traded notes.

The Adviser will, under normal market conditions, manage the Fund's assets so that seventy-five percent (75%) of its net assets are managed in accordance with the Adviser's proprietary "long" volatility strategy, and the remaining twenty-five percent (25%) of its net assets are managed in accordance with the Adviser's proprietary "short" volatility strategy. The actual exposure of the Fund's assets to these two strategies may deviate from these targets based on market conditions. In addition, the Adviser may implement adjustments to the 75/25 blend under various market conditions with the goal of enhancing returns or mitigating risk.

VIX Index:

The VIX Index measures the expected volatility of the S&P 500 Index. When the Fund has long exposure to a security or derivative instrument, the Fund owns the security and it will profit if the price of the security increases. When the Fund has short exposure to VIX Index futures or ETPs, it has taken an opposing position to the movement of equity volatility in the market, and it gains when the prices of VIX Index futures or ETPs fall while incurring losses when the prices of VIX Index futures or ETPs rise. Longs and shorts may be directly related to one another or independent from each other. The Fund's holdings are rebalanced daily among long/short exposure to VIX Index futures and ETPs; long exposure to S&P 500 Index futures and ETPs; long exposure to long-term U.S. Treasuries, and cash, as determined by the Adviser.

S&P 500 Index:

The S&P 500 Index is a market value-weighted index representing the performance of 500 widely held, publicly traded large capitalization companies.

Long and Short Volatility Strategies

Long Volatility: In low to medium volatility environments, the long volatility model typically targets a larger long exposure to S&P 500 Index futures and ETPs and a lesser long exposure to VIX Index futures and ETPs. In medium to high volatility environments, the model typically targets a lesser long exposure to S&P 500 Index futures and ETPs and a larger long exposure to VIX Index futures and ETPs.

Short Volatility: In low volatility environments, the short volatility model typically targets a larger long exposure to long-term U.S. Treasuries and a lesser short exposure to VIX Index futures and ETPs. In medium volatility environments, the model typically targets a lesser long exposure to long-term U.S. Treasuries and a larger short exposure to VIX Index futures and ETPs. In high volatility environments, the model typically targets a lesser long exposure to long-term U.S. Treasuries and short exposure to VIX Index futures and ETPs, with a larger exposure to cash.

The Adviser may consider other factors when implementing its long and short volatility strategies, such as changes to the time period over which the investment model is run, changes to the relative weightings of model exposures, and changes to the choice and weighting of the instruments used to gain such exposures.

75% Long Volatility Strategy plus 25% Short Volatility Strategy

The Adviser's approach to managing the Fund involves creating a 75/25 blend of Long and Short Volatility Strategies, based on the Fund's net assets, in order to seek to generate favorable long-term risk-adjusted returns, in part, by profiting from price changes involving instruments that track volatility levels. Depending on the level of volatility in the market environment, the 75/25 approach will emphasize different portfolio constituents in differing amounts or levels. For example, in low volatility environments, the Adviser's approach typically creates a larger long exposure to S&P 500 Index futures and ETPs and larger long exposure to long-term U.S. Treasuries and a lesser short exposure to VIX Index futures and ETPs. In medium volatility environments, the Adviser's approach typically creates a lesser long exposure to S&P 500 Index futures and ETPs and lesser long exposure to long-term U.S. Treasuries and a larger short exposure to VIX Index futures and ETPs. In high volatility environments, the approach typically creates a lesser long exposure to S&P 500 Index futures and ETPs and lesser long exposure to long-term U.S. Treasuries and a larger long exposure to VIX futures and ETPs, with a larger exposure to cash.

The Fund is non-diversified, which means that the Fund may hold larger positions in fewer securities than other funds.

Principal Investment Risks

Losing all or a portion of your investment is a risk of investing in the Fund. An investment in the Fund is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. More information on the Fund's principal investment strategies and principal risks is contained in the Fund's Statement of Additional Information (the "SAI"). The following principal risks could affect the value of your investment:

Volatility Risk. The Fund may have investments that appreciate or decrease significantly in value over short periods of time. This may cause the Fund's net asset value per share to experience significant increases or declines in value over short periods of time.

Futures Contracts Risk. The primary risks associated with the use of futures contracts are (i) the imperfect correlation between the price of the contract and the change in value of the underlying asset; (ii) possible lack of a liquid secondary market for a futures contract and the resulting inability to close such a contract when desired; (iii) losses caused by unanticipated market movements, which are potentially unlimited; (iv) the inability to predict correctly the direction of securities prices, interest rates, currency exchange rates and other economic factors; (v) the possibility that the counterparty to a contract will default in the performance of its obligations; and (vi) if the Fund has insufficient cash, it may have to sell investments to meet daily variation margin requirements on a futures contract, and the Fund may have to sell investments at a time when it may be disadvantageous to do so.

Short Sales Risk. The Fund will engage in "short sale" transactions. A short sale involves the sale by the Fund of an instrument or security that it does not own with the hope of purchasing the same security at a later date at a lower price. Short sales are designed to profit from a decline in the price of a security or instrument. The Fund will lose value if the security or instrument that is the subject of a short sale increases in value.

Derivative Instruments Risk. Derivatives are financial instruments that have a value which depends upon, or is derived from, a reference asset, such as one or more underlying securities, pools of securities, options, futures, indexes or currencies. Derivatives may result in investment exposures that are greater than their cost would suggest; in other words, a small investment in a derivative may have a large impact on the Fund's performance. The Fund could experience a loss if derivatives do not perform as anticipated or if the Fund is unable to liquidate a position because of an illiquid secondary market.

U.S. Treasury Exposure Risk. The methodology used to select U.S. Treasuries or U.S. Treasury futures could produce performance that is dissimilar from other U.S. Treasuries of similar maturities. For example, unique supply and demand conditions could create a market whereby selected U.S. Treasuries or positions trade either more or less expensively than other U.S. Treasuries or positions of the same maturity, which could negatively impact the performance of the Fund.

Market Events Risk. Geopolitical events, including pandemics (such as COVID-19), may destabilize various countries' economies and markets, which may experience increased volatility and reduced liquidity. Policy changes by the Federal Reserve and/or other government actors could similarly cause increased volatility in financial markets. Trade barriers and other protectionist trade policies (including those in the U.S.) may also result in market turbulence. Market volatility and reductions in market liquidity may negatively affect issuers worldwide, including issuers in which the Fund invests. Under such circumstances, the Fund may have difficulty liquidating portfolio holdings, particularly at favorable prices. To the extent that the Fund experiences higher levels of redemptions, the Fund may be required to transact in contemporaneous markets, even if they are volatile and/or illiquid, which may negatively impact the Fund's net asset value.

Leverage Risk. Certain derivative transactions, such as those involving investing in certain derivatives, may give rise to leverage, causing the Fund to be more volatile than if it had not been leveraged.

High Portfolio Turnover Risk. The Fund's strategy may result in high portfolio turnover rates, which may increase the Fund's brokerage commission costs and negatively impact the Fund's performance. Such portfolio turnover also may generate net short-term capital gains.

Equity Risk. The Fund will gain exposure to equity securities through investments in futures contracts. The Fund's equity holdings may decline in value because of changes in price of a particular holding or a broad stock market decline. The value of a security may decline for a number of reasons which may relate directly to the issuer of a security or broader economic or market events including changes in interest rates.

Indexed Securities and Derivatives Risk. If a security or derivative is linked to the performance of an index, it may be subject to the risks associated with changes in that index. The value of such security or derivative will fluctuate based on changes in the value of the index to which the security or derivative is linked.

Large Capitalization Company Risk. The Fund's investments in large capitalization companies may underperform other segments of the market because they may be less responsive to competitive challenges and opportunities and unable to attain high growth rates during periods of economic expansion.

New Fund Risk. The Fund is newly-formed. Accordingly, investors in the Fund bear the risk that the Fund's Adviser may not be successful in implementing the Fund's investment strategy, and may not employ a successful investment strategy, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such a liquidation could have negative tax consequences for shareholders.

Cash and Cash Equivalents Risk. To the extent the Fund holds cash and cash equivalents positions, even strategically, the Fund risks achieving lower returns and potential lost opportunities to participate in market appreciation, which could negatively impact the Fund's performance and ability to achieve its investment objective. This is particularly true when the market for other investments in which the Fund may invest is rapidly rising.

Non-Diversification Risk. The Fund is non-diversified. Performance of a non-diversified fund may be more volatile than performance of a diversified fund.

Counterparty Risk. The Fund may enter into financial instruments or transactions with a counterparty, including derivative instruments and transactions. A counterparty may become bankrupt or otherwise fail to perform its obligations due to financial difficulties, jeopardizing the value of the Fund's investment.

Exchange-Traded Products Risk. Exchange Traded Products consist of exchange-traded funds ("ETFs") and exchange-traded notes ("ETNs"). The risks of investment in ETFs typically reflect the risks of types of instruments in which the ETFs invest. By investing in an ETF, the Fund becomes a shareholder of that ETF and bears its proportionate share of the fees and expenses of the ETF. ETF investments are also subject to the risk that the ETF may fail to accurately track the market segment or index that underlies its investment objective; more frequent price fluctuations, resulting in a loss

to the Fund; the risk that the ETF may trade at a price that is lower than its NAV; and the risk that an active market for the ETF's shares may not develop or be maintained. An investment in an ETF presents the risk that the ETF may no longer meet the listing requirements of any applicable exchanges on which the ETF is listed.

ETNs are debt securities that combine certain aspects of ETFs and bonds. ETNs are not investment companies and thus are not regulated under the 1940 Act. ETNs, like ETFs, are traded on stock exchanges and generally track specified market indices, and their value depends on the performance of the underlying index and the credit rating of the issuer. ETNs may be held to maturity, but unlike bonds there are no periodic interest payments and principal is not protected. The value of an ETN may be affected by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in underlying commodities or securities markets, changes in the applicable interest rates, changes in the issuer's credit rating and economic, legal, political or geographic events that affect the referenced commodity or security. ETNs also are subject to counterparty credit risk, fixed-income risk and tracking error risk (where the ETN's performance may not match or correlate to that of its market index).

Active Management Risk. The Fund is actively managed, and is subject to the risk that the Adviser's investment strategies are unable to perform as desired. In particular, the Adviser may not correctly anticipate or predict the impact of market conditions on its investment strategy, and might not accurately measure the level of market volatility as measured by the VIX Index. In addition, the instruments selected by the Adviser for the Fund's portfolio might not produce the results anticipated by the model. Investors should also understand that the Fund is not an index fund and the Fund's holdings may deviate from the model, possibly significantly.

Performance Information

The Fund is newly created and does not have a full calendar year performance record. Performance information will be included after the Fund has been in operation for one calendar year. Past performance does not necessarily indicate how the Fund will perform in the future.

Management

Investment Adviser. ABR Dynamic Funds, LLC is the Fund's investment adviser.

Portfolio Managers. Taylor Lukof, CEO of the Adviser and Fund Manager, and David Skordal, Fund Manager, are jointly and primarily responsible for the day-to-day management of the Fund and have served as portfolio managers since the Fund's inception in 2020.

Purchase and Sale of Fund Shares

You may purchase or sell (redeem) shares of the Fund on any day that the New York Stock Exchange (the "NYSE") is open for business. You may purchase or redeem shares directly from the Fund by calling (855) 422-4518 (toll free) or writing to the Fund at ABR Dynamic Funds, P.O. Box 588, Portland, Maine 04112. You also may purchase or redeem shares of the Fund through your financial intermediary. The Fund accepts investments in the following minimum amounts:

	Institutional Shares		Investor Shares	
	Minimum Initial Investment	Minimum Additional Investment	Minimum Initial Investment	Minimum Additional Investment
Standard Accounts	\$100,000	None	\$2,500	None
Retirement Accounts	\$100,000	None	\$2,500	None

Tax Information

Shareholders may receive distributions from the Fund, which may be taxed to shareholders other than tax-advantaged investors (such as tax-advantaged retirement plans and accounts) as ordinary income, capital gains, or some combination of both. If you are investing through a tax-advantaged account, you may still be subject to taxation at ordinary income tax rates upon withdrawals from that account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

DETAILS REGARDING PRINCIPAL INVESTMENT STRATEGIES AND RISKS

The Fund seeks long-term capital appreciation. The Fund's investment objective is non-fundamental and may be changed by the Board of Trustees without a vote of shareholders.

Additional Information Regarding Principal Investment Strategies

Employing a proprietary investment model, the Fund's adviser, ABR Dynamic Funds, LLC (the "Adviser"), invests the Fund's assets primarily in securities and derivative instruments that, to varying degrees, provide (i) long exposure to CBOE Volatility Index ("VIX Index") futures and exchange-traded products ("ETPs"); (ii) short exposure to VIX Index futures and ETPs; (iii) long exposure to S&P 500 Index futures and ETPs; (iv) long exposure to long-term U.S. Treasury securities; and (v) cash. For purposes of this policy, ETPs include exchange-traded funds and exchange-traded notes.

The Adviser will, under normal market conditions, manage the Fund's assets so that seventy-five percent (75%) of its net assets are managed in accordance with the Adviser's proprietary "long" volatility strategy, and the remaining twenty-five percent (25%) of its net assets are managed in accordance with the Adviser's proprietary "short" volatility strategy. The actual exposure of the Fund's assets to these two strategies may deviate from these targets based on market conditions. In addition, the Adviser may implement adjustments to the 75/25 blend under various market conditions with the goal of enhancing returns or mitigating risk.

Volatility is a statistical measure of the magnitude of changes in the Fund's returns without regard to the direction of those changes. Higher volatility generally indicates higher risk, as often reflected by frequent (and sometimes significant) movements up and down in value. A short position generally involves the sale of a security that the Fund has borrowed (but does not own) with the expectation that the price of the security will decrease in value, enabling the Fund to repurchase the security later at the lower price.

VIX Index:

The VIX Index measures the expected volatility of the S&P 500 Index. When the Fund has long exposure to a security or derivative instrument, the Fund owns the security and it will profit if the price of the security increases. When the Fund has short exposure to VIX Index futures or ETPs, it has taken an opposing position to the movement of equity volatility in the market, and it gains when the prices of VIX Index futures or ETPs fall while incurring losses when the prices of VIX Index futures or ETPs rise. Longs and shorts may be directly related to one another or independent from each other. The Fund's holdings are rebalanced daily among long/short exposure to VIX Index futures and ETPs; long exposure to S&P 500 Index futures and ETPs; long exposure to long-term U.S. Treasuries, and cash, as determined by the Adviser.

S&P 500 Index:

The S&P 500 Index is a market value-weighted index representing the performance of 500 widely held, publicly traded large capitalization companies.

Long and Short Volatility Strategies

Long Volatility: In low to medium volatility environments, the long volatility model typically targets a larger long exposure to S&P 500 Index futures and ETPs and a lesser long exposure to VIX Index futures and ETPs. In medium to high volatility environments, the model typically targets a lesser long exposure to S&P 500 Index futures and ETPs and a larger long exposure to VIX Index futures and ETPs.

Short Volatility: In low volatility environments, the short volatility model typically targets a larger long exposure to long-term U.S. Treasuries and a lesser short exposure to VIX Index futures and ETPs. In medium volatility environments, the model typically targets a lesser long exposure to long-term U.S. Treasuries and a larger short exposure to VIX Index futures and ETPs. In high volatility environments, the model typically targets a lesser long exposure to long-term U.S. Treasuries and short exposure to VIX Index futures and ETPs, with a larger exposure to cash.

The Adviser may consider other factors when implementing its long and short volatility strategies, such as changes to the time period over which the investment model is run, changes to the relative weightings of model exposures, and changes to the choice and weighting of the instruments used to gain such exposures.

75% Long Volatility Strategy plus 25% Short Volatility Strategy

The Adviser's approach to managing the Fund involves creating a 75/25 blend of Long and Short Volatility Strategies, based on the Fund's net assets, in order to seek to generate favorable long-term risk-adjusted returns, in part, by profiting from price changes involving instruments that track volatility levels. Depending on the level of volatility in the market environment, the 75/25 approach will emphasize different portfolio constituents in differing amounts or levels. For example, in low volatility environments, the Adviser's approach typically creates a larger long exposure to S&P 500 Index futures and ETPs and larger long exposure to long-term U.S. Treasuries and a lesser short exposure to VIX Index futures and ETPs. In medium volatility environments, the Adviser's approach typically creates a lesser long exposure to S&P 500 Index futures and ETPs and lesser long exposure to long-term U.S. Treasuries and a larger short exposure to VIX Index futures and ETPs. In high volatility environments, the approach typically creates a lesser long exposure to S&P 500 Index futures and ETPs and lesser long exposure to long-term U.S. Treasuries and a larger long exposure to VIX futures and ETPs, with a larger exposure to cash.

The Fund is generally expected to engage in frequent and active trading of portfolio securities to achieve its investment objective. A higher turnover rate will involve correspondingly greater transaction costs, which will be borne directly by the Fund, may have an adverse impact on performance, and may increase the potential for more taxable distributions being paid to shareholders, including short-term capital gains that are taxed at ordinary income rates. To the extent the Fund engages in short sales (which are not included in calculating the portfolio turnover rate), the transaction costs incurred by the Fund are likely to be greater than the transaction costs incurred by a mutual fund that does not take short positions and has a similar portfolio turnover rate.

The Fund is non-diversified, which means that the Fund may hold larger positions in fewer securities than other funds.

Additional Information Regarding Principal Investment Risks

The principal risks that may adversely affect the Fund's net asset value ("NAV") per share or total return have previously been summarized under the Fund's "Summary Section." These risks are discussed in more detail below.

The Fund is designed for long-term investors and is not a complete investment program. You may lose money by investing in the Fund.

Volatility Risk. The Fund may have investments that appreciate or decrease significantly in value over short periods of time. This may cause the Fund's net asset value per share to experience significant increases or declines in value over short periods of time.

Futures Contracts Risk. The primary risks associated with the use of futures contracts are (i) the imperfect correlation between the price of the contract and the change in value of the underlying asset; (ii) possible lack of a liquid secondary market for a futures contract and the resulting inability to close such a contract when desired; (iii) losses caused by unanticipated market movements, which are potentially unlimited; (iv) the inability to predict correctly the direction of securities prices, interest rates, currency exchange rates and other economic factors; (v) the possibility that the counterparty to a contract will default in the performance of its obligations; and (vi) if the Fund has insufficient cash, it may have to sell investments to meet daily variation margin requirements on a futures contract, and the Fund may have to sell investments at a time when it may be disadvantageous to do so.

Short Sales Risk. The Fund will engage in "short sale" transactions. A short sale involves the sale by the Fund of an instrument or security that it does not own with the hope of purchasing the same security at a later date at a lower price. Short sales are designed to profit from a decline in the price of a security or instrument. The Fund will lose value if

the security or instrument that is the subject of a short sale increases in value. This is the opposite of traditional “long” investments where the value of the Fund increases as the value of a portfolio security or instrument increases. The Fund may enter into short derivative positions through futures contracts on equity volatility. If the price of the security or derivative that is the subject of a short sale increases, then the Fund will incur a loss equal to the increase in price from the time that the short sale was entered into plus any premiums and interest paid to a third party in connection with the short sale. The risk of loss on a shorted position is potentially unlimited unlike the risk of loss on a long position, which is limited to the amount paid for the investment plus transaction costs. Therefore, short sales involve the risk that losses may be exaggerated, potentially losing more money than the actual cost of the investment. Also, there is the risk that the third party to the short sale may fail to honor its contract terms, causing a loss to the Fund. Further, in times of unusual or adverse economic, market or political conditions, neither the Index nor the Fund may be able to fully or partially implement its short selling strategy.

Derivative Instruments Risk. Derivatives are financial instruments that have a value which depends upon, or is derived from, a reference asset, such as one or more underlying securities, pools of securities, options, futures, indexes or currencies. Derivatives may result in investment exposures that are greater than their cost would suggest; in other words, a small investment in a derivative may have a large impact on the Fund’s performance. The successful use of derivatives generally depends on the ability to predict market movements. There may be an imperfect correlation between a derivative and its reference asset.

Derivatives may be illiquid and may be more volatile than other types of investments. Compared to other types of investments, derivatives may also be harder to value. In addition, changes in government regulation of derivative instruments could affect the Fund’s use of derivatives and the character, timing and amount of the Fund’s taxable income or gains. The Fund’s use of derivatives may be limited by the requirements for taxation of the Fund as a regulated investment company. Derivatives are subject to counterparty risk and, as a result, the Fund may not obtain a recovery of its investment in them should a counterparty fail to honor its obligations. The Fund may be required to segregate assets or enter into offsetting positions in connection with investments in derivatives. Such segregation will not limit exposure to loss, and the Fund may be exposed to investment risk with respect to the segregated assets to the extent that, but for the applicable segregation requirement, the segregated assets would be sold. Derivatives may involve leverage.

U.S. Treasury Exposure Risk. The methodology used to select U.S. Treasuries or U.S. Treasury futures could produce performance that is dissimilar from other U.S. Treasuries of similar maturities. For example, unique supply and demand conditions could create a market whereby selected U.S. Treasuries or positions trade either more or less expensively than other U.S. Treasuries or positions of the same maturity, which could negatively impact the performance of the Fund.

Market Events Risk. Turbulence in the financial markets and reduced liquidity in equity, credit and fixed-income markets may negatively affect issuers worldwide, which could have an adverse effect on the Fund. Geopolitical and similar events, including pandemics and natural disasters, may destabilize world economies and cause market turbulence. Trade barriers and other protectionist trade policies (including those in the U.S.) may also increase market turbulence. Similarly, policy changes by the Federal Reserve and/or other government actors, including changes in interest rates, could cause or increase volatility in the financial markets. Increases in market volatility may lead to reductions in market liquidity, which may make it more difficult for the Fund to purchase and sell portfolio holdings at favorable market prices and make the Fund’s net asset value fluctuate materially. To the extent that the Fund experiences high redemptions during periods of market turbulence, the Fund’s performance may be adversely affected as the Fund may not be able to sell portfolio holdings at favorable prices. In addition, the Fund may experience increased portfolio turnover, which will increase its costs and adversely impact its performance.

In late 2019 and early 2020, a global pandemic and policy changes implemented by the United Kingdom caused varying levels of market turbulence. Most significantly, an outbreak of severe acute respiratory disease from a novel coronavirus, COVID-19, was detected in China and spread internationally, resulting in major operational and market disruptions. Various countries closed their borders and internally imposed or recommended strict quarantines of exposed populations. Travel became restricted. Supply chains were disrupted, and consumer activity decreased. All of these changes in the world economy led to significant market uncertainty, heightened market volatility and reduced market

liquidity. The final impact of COVID-19, and other epidemics and pandemics that may arise in the future, cannot be known at this time and may materially adversely affect issuers in which the Fund invests and the Fund itself.

In addition, the United Kingdom officially withdrew from the European Union (“EU”) on January 31, 2020 in an act commonly referred to as “Brexit.” The effect of Brexit on the United Kingdom and European economies will likely depend on the nature of trade relations between the United Kingdom and the EU and other major economies following Brexit, which are matters being negotiated. During a transition period that will extend to December 2020, subject to extension, the United Kingdom will have access to the EU single market and be subject to EU regulation.

Leverage Risk. Leverage transactions, including investing in certain derivatives, create the risk of magnified capital losses. The use of leverage may increase (or decrease) the Fund’s return when the Fund earns a greater (or lesser) return on leveraged investments than the cost of the leverage. The effect of leverage on the Fund’s returns may be magnified by market movements or changes in the cost of leveraging. Changes in interest rates and similar economic factors could cause the relationship between the cost of leveraging and the yield on leveraged investments to change in a manner that is unfavorable for the Fund. The Fund’s current investment income may not be sufficient to meet the interest expense of leveraging, and it may be necessary for the Fund to liquidate certain of its investments at an inopportune time. Leverage may exaggerate the effect of a change in the value of the Fund’s portfolio securities, causing the Fund to be more volatile than if leverage was not used. Leverage may also involve the creation of liability that requires the Fund to pay interest. The Fund will, where required, reduce leverage risk by either segregating an equal amount of liquid assets or “covering” the transactions that introduce such risk.

High Portfolio Turnover Risk. The Fund’s investment strategy may result in high portfolio turnover rates. This may increase the Fund’s brokerage commission costs. The performance of the Fund could be negatively impacted by the increased brokerage commission cost incurred by the Fund. Rapid portfolio turnover also exposes shareholders to a higher current realization of short-term capital gains, distributions of which would generally be taxed to you as ordinary income and thus cause you to pay higher taxes.

Equity Risk. Equity holdings may decline in value because of changes in price of a particular holding or a broad stock market decline. These fluctuations could be a drastic movement or a sustained trend. The value of a security may decline for a number of reasons that directly relate to the issuer of a security, such as management performance, financial leverage and reduced demand for the issuer’s goods or services, or broader economic or market events, including changes in interest rates. Common stocks in general are subject to the risk of an issuer liquidating or declaring bankruptcy, in which case the claims of owners of the issuer’s debt securities and preferred stock take precedence over the claims of common stockholders. The value of convertible securities tends to decline as interest rates rise and, because of the conversion feature, tends to vary with fluctuation in the market value of the underlying securities or any changes in the issuer’s credit rating.

Indexed Securities and Derivatives Risk. If the derivative is linked to the performance of an index, it will be subject to the risks associated with changes in that index. The value of such security or derivative will fluctuate based on changes in the value of the index to which the security or derivative is linked. Changes in the value of an index may be difficult to predict and it is possible that an investment in a security or derivative linked to an index may cause the value of the Fund to decrease. Certain indexed securities may create leverage, to the extent that they increase or decrease in value at a rate that is a multiple of the changes in the applicable index.

Large Capitalization Company Risk. Investments in large capitalization companies may go in and out of favor based on market and economic conditions and may underperform other market segments. Some large capitalization companies may be unable to respond quickly to new competitive challenges or to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion. As such, returns on investments in stocks of large capitalization companies could trail the returns on investments in stocks of small and mid-sized capitalization companies.

New Fund Risk. The Fund is newly-formed. Accordingly, investors in the Fund bear the risk that the Fund’s Adviser may not be successful in implementing the Fund’s investment strategy, and may not employ a successful investment

strategy, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such a liquidation could have negative tax consequences for shareholders.

Cash and Cash Equivalents Risk. The Adviser may hold cash positions, as dictated by the investment model, in order to follow generally the proportion of cash positions in the Index. If the Fund holds cash uninvested it will be subject to the credit risk of the depository institution holding the cash. In addition, if the Fund holds cash uninvested, the Fund will not earn income on the cash and the Fund's yield will go down. If a significant amount of the Fund's assets are used for cash management or defensive investing purposes, it may not achieve its investment objective.

Non-Diversification Risk. The Fund is non-diversified. Performance of a non-diversified fund may be more volatile than performance of a diversified fund because a non-diversified fund may invest a greater percentage of its total assets in the securities of a single issuer. Greater investment in a single issuer makes the Fund more susceptible to financial, economic or market events impacting such issuer.

Counterparty Risk. The Fund may enter into financial instruments or transactions with a counterparty, including derivatives instruments and transactions. A counterparty may become bankrupt or otherwise fail to perform its obligations due to financial difficulties, jeopardizing the value of the Fund's investment. The Fund may experience significant delays in recovering an investment in a bankruptcy or other reorganization proceeding, and recover only a limited amount or none of its investment in such circumstances.

Exchange-Traded Products Risk. Exchange Traded Products consist of ETFs and ETNs. An investment in an ETF generally presents the same primary risks as an investment in a fund that is not exchange-traded that has the same investment objectives, strategies and policies as the ETF. ETF investments are also subject to the risk that the ETF may fail to accurately track the market segment or index that underlies its investment objective; more frequent price fluctuations, resulting in a loss to the Fund; the risk that the ETF may trade at a price that is lower than its NAV; and the risk that an active market for the ETF's shares may not develop or be maintained. ETFs are also subject to specific risks depending on the nature of the ETF, such as liquidity risk, sector risk, and foreign and emerging market risk, as well as risks associated with fixed income securities, real estate investments and commodities. An investment in an ETF presents the risk that the ETF may no longer meet the listing requirements of any applicable exchanges on which the ETF is listed. The Fund will indirectly pay a proportional share of the asset-based fees of the ETFs in which the Fund invests.

ETNs are a type of unsecured, unsubordinated debt security that have characteristics and risks similar to those of fixed-income securities and trade on a major exchange similar to shares of ETFs. Unlike other types of fixed income securities, however, the performance of ETNs is based upon that of a market index or other reference asset minus fees and expenses, no coupon payments are made and no principal protection exists. The value of an ETN may be affected by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in underlying commodities or securities markets, changes in the applicable interest rates, changes in the issuer's credit rating and economic, legal, political or geographic events that affect the referenced commodity or security. The Fund's ability to sell its ETN holdings also may be limited by the availability of a secondary market and the Fund may have to sell such holdings at a discount. ETNs also are subject to counterparty credit risk, fixed-income risk and tracking error risk (where the ETN's performance may not match or correlate to that of its market index). ETNs also incur certain expenses not incurred by their applicable index.

Active Management Risk. The Fund is actively managed, and is subject to the risk that the Adviser's investment strategies are unable to perform as desired. In particular, the Adviser may not correctly anticipate or predict the impact of market conditions on its investment strategy, and might not accurately measure the level of market volatility as measured by the VIX Index. In addition, the instruments selected by the Adviser for the Fund's portfolio might not produce the results anticipated by the model. Investors should also understand that the Fund is not an index fund and the Fund's holdings may deviate from the model, possibly significantly.

MANAGEMENT

The ABR 75/25 Volatility Fund (the "Fund") is a series of Forum Funds II (the "Trust"), an open-end, management investment company (mutual fund). The Board of Trustees (the "Board") oversees the management of the Fund and meets periodically to review the Fund's performance, monitor investment activities and practices and discuss other matters affecting the Fund. Additional information regarding the Board and the Trust's executive officers may be found in the Fund's SAI, which is available from the Adviser's website at www.abrdynamicfunds.com.

Investment Adviser

The Fund's investment adviser is ABR Dynamic Funds, LLC (the "Adviser"), 48 Wall Street, New York, NY 10005. The Adviser is a registered investment adviser under the Investment Advisers Act of 1940 and provides investment advisory services to the Fund. As of June 30, 2020, the Adviser had approximately \$290 million of assets under management.

Subject to the general oversight of the Board, the Adviser makes investment decisions for the Fund pursuant to an investment advisory agreement between the Adviser and the Trust, on behalf of the Fund (the "Advisory Agreement"). The Adviser receives an advisory fee from the Fund at an annual rate equal to 2.50% of the Fund's average annual daily net assets of the Fund under the terms of the Advisory Agreement.

The Adviser has contractually agreed to waive its fee and/or reimburse Fund expenses to limit the Fund's Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement (excluding all taxes, interest, portfolio transaction expenses, proxy expenses and extraordinary expenses) of Institutional Shares to 1.75%, and Investor Shares to 2.00% through November 30, 2021 ("Expense Cap"). The Expense Cap may only be raised or eliminated with the consent of the Board of Trustees. The Adviser may recoup from the Fund fees waived and expenses reimbursed by the Adviser pursuant to the Expense Cap if such recoupment is made within three years of the fee waiver or expense reimbursement and does not cause the Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement of the Fund (after the recoupment has been taken into account) to exceed the lesser of (i) the then-current expense cap and (ii) the expense cap in place at the time the fees/expenses were waived or reimbursed. Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement will increase if exclusions from the Expense Cap apply.

A discussion summarizing the basis on which the Board last approved the Advisory Agreement will be included in the Fund's annual report for the period ended July 31, 2021.

Portfolio Managers

Taylor Lukof and David Skordal are the portfolio managers of the Fund and are jointly and primarily responsible for the day-to-day management of the Fund.

Taylor Lukof. Mr. Lukof is the Founder/CEO of ABR Dynamic Funds, LLC and Fund Manager. He is also the founder and chief investment officer of ABR Management LLC. He has 17 years of investment experience. He was formerly a partner at Toro Trading LLC, where he co-managed equity derivative trading strategies. Mr. Lukof, as a market maker, was responsible for trading single name and index-related exchanged traded products. He began his career at TANSTAAFL Research & Trading, LLC, as the youngest member of the American Stock Exchange at that time.

Taylor graduated from Bucknell University, Cum Laude, with a Bachelor of Science in Business Administration.

David Skordal. Mr. Skordal is the Co-Founder of ABR Dynamic Funds, LLC and Fund Manager. He is also the Portfolio Manager at ABR Management LLC. He has 18 years of investment experience. He was formerly a Trader at Toro Trading LLC, where he worked alongside Mr. Lukof. At Toro Trading, he developed and managed the international Exchange Traded Funds desk. Before joining Toro Trading in 2009, Mr. Skordal was a specialist on the American Stock Exchange for Susquehanna International Group. He has a eleven-year working relationship with Mr. Lukof.

Dave graduated from Massachusetts Institute of Technology (MIT) with a Bachelor of Science (BS) degree in Physics.

The SAI provides additional information about the compensation of the Portfolio Managers, other accounts managed by the Portfolio Managers and the ownership of Fund shares by the Portfolio Managers.

Other Service Providers

Atlantic Fund Administration, LLC, a wholly owned subsidiary of Apex US Holdings LLC (d/b/a Apex Fund Services) (“Apex”), provides fund accounting, fund administration, and compliance services to the Fund and the Trust and supplies certain officers of the Trust, including a Principal Executive Officer, a Principal Financial Officer, a Chief Compliance Officer, an Anti-Money Laundering Compliance Officer and additional compliance support personnel. Atlantic Shareholder Services, LLC, a wholly owned subsidiary of Apex, provides transfer agency services to the Fund and the Trust.

Foreside Fund Services, LLC (the “Distributor”), the Trust’s principal underwriter, acts as the Trust’s distributor in connection with the offering of Fund shares. The Distributor may enter into arrangements with banks, broker-dealers and other financial intermediaries through which investors may purchase or redeem shares. The Distributor is not affiliated with the Adviser or with Atlantic or their affiliates.

Fund Expenses

The Fund is charged for those expenses that are directly attributable to it, while other expenses are allocated proportionately among the Fund and other series of the Trust based upon methods approved by the Board. Expenses that are directly attributable to a specific class of shares, such as distribution fees and shareholder servicing fees, are charged directly to that class. Expenses that are directly attributable to a specific class of shares, such as distribution fees and shareholder servicing fees, are charged directly to that class. Any agreement to waive fees or to reimburse expenses increases the investment performance of the applicable Fund and its share classes for the period during which the waiver or reimbursement is in effect. Current Adviser fee waiver and/or expense reimbursements are reflected in the section titled “Fees and Expenses.”

Wire investments (or ACH payments):

Please contact the transfer agent at (855) 422-4518 (toll free) to obtain the ABA routing number and account number for the Fund.

General Information

You may purchase or sell (redeem) shares of the Fund on any day that the NYSE is open for business. Notwithstanding this fact, the Fund may, only in the case of an emergency, calculate its NAV and accept and process shareholder orders when the NYSE is closed.

You may purchase or sell shares of the Fund at the next NAV calculated (normally 4:00 p.m., Eastern Time) after the transfer agent or your approved broker-dealer or other financial intermediary receives your request in good order. "Good order" means that you have provided sufficient information necessary to process your request as outlined in this Prospectus, including any required signatures, documents, payment and Medallion Signature Guarantees. All requests to purchase or sell Fund shares received in good order prior to the Fund's close will receive that day's NAV. Requests received in good order after the Fund's close or on a day when the Fund does not value its shares will be processed on the next business day and will be priced at the next NAV. The Fund cannot accept orders that request a particular day or price for the transaction or any other special conditions.

Shares of the Fund will only be issued against full payment, as described more fully in this Prospectus and the SAI. The Fund does not issue share certificates.

If you purchase shares directly from the Fund, you will receive a confirmation of each transaction and quarterly statements detailing Fund balances and all transactions completed during the prior quarter. Automatic reinvestments of distributions and systematic investments and withdrawals may be confirmed only by quarterly statement. You should verify the accuracy of all transactions in your account as soon as you receive your confirmations and quarterly statements.

The Fund may temporarily suspend or discontinue any service or privilege, including systematic investments and withdrawals, wire redemption privileges and telephone or internet redemption privileges, if applicable. The Fund reserves the right to refuse any purchase request, including, but not limited to, requests that could adversely affect the Fund or its operations. If the Fund were to refuse any purchase request, it would notify the purchaser within two business days of receiving a purchase request in good order.

If your account is deemed abandoned or unclaimed by applicable state law, the Fund may be required to "escheat" or transfer the property to the appropriate state's unclaimed property administration. Certain states have laws that allow shareholders to name a representative to receive notice of abandoned property ("escheatment") by submitting a designation form, which generally can be found on the official state website. In such states, if a shareholder designates a representative to receive escheatment notices, any notice generally will be delivered as required by the state's laws. A completed designation form should be mailed to the Fund (if shares are held directly with the Fund) or to the shareholder's financial intermediary. Shareholders should check their state's official website to get more information on escheatment law(s).

NAV Determination. The NAV of the Fund (or share class) is determined by taking the value of the assets of the Fund (or share class), subtracting the value of the liabilities of the Fund (or share class) and then dividing the result (net assets) by the number of outstanding shares of the Fund (or share class). The Fund calculates its NAV as of the close of trading on the NYSE (generally 4:00 p.m., Eastern Time). The NYSE is open every weekday other than NYSE holidays and early closings, which are published at www.nyse.com and subject to change without notice.

The Fund values securities at current market value, where market quotations are available, using the last reported sales price or the official closing price, as provided by independent pricing services. In the absence of sales, securities are valued at the mean of the last bid and asked prices. Non-exchange traded investment companies are valued at their NAVs. Certain short-term securities may be valued at amortized cost. Futures contracts are valued at that day's settlement price on the exchange where the contract is traded. Government, corporate, asset-backed and municipal bonds and convertible securities, including high-yield or junk bonds, normally are valued at prices provided by independent pricing services. Prices from these sources may be determined without exclusive reliance on quoted prices, and may be based on broker-supplied or dealer-supplied valuations or on matrix pricing, which is a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate, maturity, institution-size trading in similar groups of securities, developments related to special securities, dividend rate, and other market data.

If market quotations are not readily available or the Fund reasonably believes that they are unreliable, the Fund will seek to value such securities at fair value, as determined in good faith using procedures approved by the Board. The Board has delegated day-to-day responsibility for fair valuation determinations in accordance with these procedures to a Valuation Committee. The Valuation Committee makes such determinations under the supervision of the Board. Fair valuation may be based on subjective factors. As a result, the fair value price of a security may differ from that security's market price and may not be the price at which the security may be sold. Fair valuation could result in a different NAV than a NAV determined by using market quotations.

Fixed Income Securities may be valued at prices supplied by the Fund's pricing agent based on broker-supplied or dealer-supplied valuations or on matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

Transactions Through Financial Intermediaries. The Fund has authorized certain financial services companies, broker-dealers, banks and other agents, including the designees of such entities (collectively, "financial intermediaries"), to accept purchase and redemption orders on the Fund's behalf. If you invest through a financial intermediary, the policies and fees of the financial intermediary may be different from the policies and fees you would be subject to if you had invested directly in the Fund. Among other things, financial intermediaries may charge transaction fees and may set different minimum investment restrictions or limitations on buying or selling Fund shares. You should consult your broker or another representative of your financial intermediary for more information.

The Fund will be deemed to have received a purchase or redemption order when a financial intermediary that is an agent of the Fund for the purpose of accepting orders receives the order. All orders to purchase or sell shares are processed as of the next NAV calculated after the order has been received in good order by a financial intermediary. Orders are accepted until the close of trading on the NYSE every business day (normally 4:00 p.m., Eastern Time) and are processed, including by financial intermediaries, at that day's NAV.

Payments to Financial Intermediaries. The Fund, at its own expense, may pay additional compensation to financial intermediaries for shareholder-related services, including administrative, recordkeeping and shareholder communication services. In addition, pursuant to any applicable Rule 12b-1 plan, the Fund may pay compensation to financial intermediaries for distribution-related services. For example, compensation may be paid to make Fund shares available to sales representatives and/or customers of a fund supermarket platform or a similar program sponsor or for services provided in connection with such fund supermarket platforms and programs. To the extent that the Fund pays all or a portion of such compensation, the payment is designed to compensate the financial intermediary for distribution activities or for providing services that would otherwise be provided by the Fund's transfer agent and/or administrator.

The Adviser or another Fund affiliate, out of its own resources and not as an expense of the Fund, may provide additional compensation to financial intermediaries. Such compensation is sometimes referred to as "revenue sharing." Compensation received by a financial intermediary from the Adviser or another Fund affiliate may include payments for shareholder servicing, marketing and/or training expenses incurred by the financial intermediary, including expenses incurred by the financial intermediary in educating its salespersons with respect to Fund shares. For example, such compensation may include reimbursements for expenses incurred in attending educational seminars regarding the Fund, including travel and lodging expenses. It may also cover costs incurred by financial intermediaries in connection with

their efforts to sell Fund shares, including costs incurred in compensating registered sales representatives and preparing, printing and distributing sales literature.

The amount of compensation paid to different financial intermediaries may vary. The compensation paid to a financial intermediary may be based on a variety of factors, including average assets under management in accounts distributed and/or serviced by the financial intermediary, gross sales by the financial intermediary and/or the number of accounts serviced by the financial intermediary that invest in the Fund.

Any compensation received by a financial intermediary, whether from the Fund, the Adviser or another affiliate, and the prospect of receiving such compensation, may provide the financial intermediary with an incentive to recommend the shares of the Fund, or a certain class of shares of the Fund, over other potential investments. Similarly, the compensation may cause financial intermediaries to elevate the prominence of the Fund within its organization by, for example, placing it on a list of preferred funds.

Anti-Money Laundering Program. Customer identification and verification are part of the Fund's overall obligation to deter money laundering under federal law. The Trust's Anti-Money Laundering Program is designed to prevent the Fund from being used for money laundering or the financing of terrorist activities. In this regard, the Fund reserves the right, to the extent permitted by law, (1) to refuse, cancel or rescind any purchase order or (2) to freeze any account and/or suspend account services. These actions will be taken when, at the sole discretion of Trust management, they are deemed to be in the best interest of the Fund or in cases when the Fund is requested or compelled to do so by governmental or law enforcement authorities or applicable law. If your account is closed at the request of governmental or law enforcement authorities, you may not receive proceeds of the redemption if the Fund is required to withhold such proceeds.

Disclosure of Portfolio Holdings. A description of the Fund's policies and procedures with respect to the disclosure of portfolio securities is available in the Fund's SAI, which is available on the Adviser's website at www.abrdynamicfunds.com.

Choosing a Share Class

The Fund offers two classes of shares: Institutional Shares and Investor Shares. Each class has a different combination of purchase restrictions and ongoing fees, allowing you to choose the class that best meets your needs.

Institutional Shares. Institutional Shares of the Fund are designed for individual investors who meet the minimum investment threshold and for institutional investors (such as investment advisers, financial institutions, corporations, trusts, estates and religious and charitable organizations) investing for proprietary programs and firm discretionary accounts. Institutional Shares are sold without the imposition of initial sales charges and are not subject to Rule 12b-1 fees.

Investor Shares. Investor Shares of the Fund are for retail investors who invest in the Fund directly or through a fund supermarket or other investment platform. Investor Shares are not sold with the imposition of initial sales charges but are subject to a Rule 12b-1 fee of up to 0.25% of the Investor Shares' average daily net assets. A lower minimum initial investment is required to purchase Investor Shares.

	Institutional Shares	Investor Shares
Minimum Initial Investment	\$100,000	\$2,500
Sales Charges	None	None
Rule 12b-1 Distribution Fees	None	0.25%

Under certain circumstances, an investor's investment in one class of shares of the Fund may be converted into an investment in the other class of shares of the Fund. No gain or loss will generally be recognized for federal income tax purposes as a result of such a conversion, and a shareholder's basis in the acquired shares will be the same as such shareholder's basis in the converted shares. Shareholders should consult their tax advisors regarding the state and local tax consequences of such a conversion, or any exchange of shares.

Buying Shares

How to Make Payments. Unless purchased through a financial intermediary, all investments must be made by check, Automated Clearing House (“ACH”) or wire. All checks must be payable in U.S. dollars and drawn on U.S. financial institutions. In the absence of the granting of an exception consistent with the Trust’s Anti-Money Laundering Program, the Fund does not accept purchases made by credit card check, starter check, checks with more than one endorsement (unless the check is payable to all endorsees), cash or cash equivalents (for instance, you may not pay by money order, cashier’s check, bank draft or traveler’s check). The Fund and the Adviser also reserve the right to accept in kind contributions of securities in exchange for shares of the Fund.

Checks. Checks must be made payable to “ABR Dynamic Funds.” For individual, sole proprietorship, joint, Uniform Gifts to Minors Act (“UGMA”) and Uniform Transfers to Minors Act (“UTMA”) accounts, checks may be made payable to one or more owners of the account and endorsed to “ABR Dynamic Funds.” A \$20 charge may be imposed on any returned checks.

ACH. The Automated Clearing House system maintained by the Federal Reserve Bank allows banks to process checks, transfer funds and perform other tasks. Your U.S. financial institution may charge you a fee for this service.

Wires. You may instruct the U.S. financial institution with which you have an account to make a federal funds wire payment to the Fund. Your U.S. financial institution may charge you a fee for this service.

Minimum Investments. The Fund accepts investments in the following minimum amounts:

	Institutional Shares		Investor Shares	
	Minimum Initial Investment	Minimum Additional Investment	Minimum Initial Investment	Minimum Additional Investment
Standard Accounts	\$100,000	None	\$2,500	None
Retirement Accounts	\$100,000	None	\$2,500	None

The Fund reserves the right to waive minimum investment amounts, if deemed appropriate by an officer of the Trust.

Registered investment advisers and financial planners may be permitted to aggregate the value of accounts in order to meet minimum investment amounts.

There is no initial or subsequent investment minimum for directors, officers and employees of the Adviser or the spouse, sibling, direct ancestor, or direct descendent (collectively, “relatives”) of any such person, any trust or individual retirement account or self-employed retirement plan for the benefit of any such person or relative, or the estate of any such person or relative.

Account Requirements. The following table describes the requirements to establish certain types of accounts in the Fund.

Type of Account	Requirement
<p>Individual, Sole Proprietorship and Joint Accounts</p> <ul style="list-style-type: none"> Individual accounts and sole proprietorship accounts are owned by one person. Joint accounts have two or more owners (tenants). 	<ul style="list-style-type: none"> Instructions must be signed by all persons named as account owners exactly as their names appear on the account.

Type of Account	Requirement
<p><i>Gifts or Transfers to a Minor (UGMA, UTMA)</i></p> <ul style="list-style-type: none"> • These custodial accounts are owned by a minor child but controlled by an adult custodian. 	<ul style="list-style-type: none"> • Depending on state laws, you may set up a custodial account under the UGMA or the UTMA. • The custodian must sign instructions in a manner indicating custodial capacity.
<p><i>Corporations/Other Entities</i></p> <ul style="list-style-type: none"> • These accounts are owned by the entity, but control is exercised by its officers, partners or other management. 	<ul style="list-style-type: none"> • The entity should submit a certified copy of its articles of incorporation (or a government-issued business license or other document that reflects the existence of the entity) and a corporate resolution or a secretary’s certificate.
<p><i>Trusts</i></p> <ul style="list-style-type: none"> • These accounts are controlled by a trustee as a way to convey and control assets for the benefit of a third-party owner. 	<ul style="list-style-type: none"> • The trust must be established before an account may be opened. • The trust should provide the first and signature pages from the trust document identifying the trustees.

Account Application and Customer Identity Verification. To help the government fight the funding of terrorism and money laundering activities, federal law requires financial institutions to obtain, verify and record information that identifies each person who opens an account.

When you open an account, the Fund will ask for your first and last name, U.S. taxpayer identification number (“TIN”), physical street address, date of birth and other information or documents that will allow the Fund to identify you. If you do not supply the required information, the Fund will attempt to contact you or, if applicable, your financial adviser. If the Fund cannot obtain the required information within a timeframe established in its sole discretion, your application will be rejected.

When your application is in good order and includes all required information, your order will normally be processed at the NAV next calculated after receipt of your application and investment amount. The Fund will attempt to verify your identity using the information that you have supplied and other information about you that is available from third parties, including information available in public and private databases, such as consumer reports from credit reporting agencies.

The Fund will try to verify your identity within a timeframe established in its sole discretion. If the Fund cannot do so, the Fund reserves the right to redeem your investment at the next NAV calculated after the Fund decides to close your account. If your account is closed, you may realize a gain or loss on the Fund shares in the account. You will be responsible for any related taxes and will not be able to recoup any redemption fees assessed, if applicable.

Policy on Foreign Shareholders. The Fund generally requires that all shareholders be U.S. persons or U.S. resident aliens with a valid TIN (or who can show proof of having applied for a TIN and commit to provide a valid TIN within 60 days) in order to open an account with the Fund. Non-U.S. persons who meet the customer identification and verification requirements under the Trust’s Anti-Money Laundering Program may be accepted in the sole discretion of Trust management.

Investment Procedures. The following table describes the procedures for investing in the Fund.

How to Open an Account	How to Add to Your Account
<p><i>Through a Financial Intermediary</i></p> <ul style="list-style-type: none"> • Contact your financial intermediary using the method that is most convenient for you. 	<p><i>Through a Financial Intermediary</i></p> <ul style="list-style-type: none"> • Contact your financial intermediary using the method that is most convenient for you.

How to Open an Account	How to Add to Your Account
<p>By Check</p> <ul style="list-style-type: none"> • Call, write or e-mail the Fund or visit the Fund’s website for an account application. • Complete the application (and other required documents, if applicable). • Mail the Fund your original application (and other required documents, if applicable) and a check. 	<p>By Check</p> <ul style="list-style-type: none"> • Fill out an investment slip from a confirmation or write the Fund a letter. • Write your account number on your check. • Mail the Fund the investment slip or your letter and the check.
<p>By Wire</p> <ul style="list-style-type: none"> • Call, write or e-mail the Fund or visit the Fund’s website for an account application. • Complete the application (and other required documents, if applicable). • Call the Fund to notify the transfer agent that you are faxing your completed application (and other required documents, if applicable). The transfer agent will assign you an account number. • Mail the Fund your original application (and other required documents, if applicable). • Instruct your U.S. financial institution to wire money to the Fund. 	<p>By Wire</p> <ul style="list-style-type: none"> • Instruct your U.S. financial institution to wire money to the Fund.

The transfer agent will assign you an account number. • Mail the Fund your original application (and other required documents, if applicable). • The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution identified on your account application. • ACH purchases are limited to \$100,000 per day. 	<p>By ACH Payment</p> <ul style="list-style-type: none"> • Call the Fund to request a purchase by ACH payment. • The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution account identified on your account application. • ACH purchases are limited to \$100,000 per day.
<p>By Internet</p> <ul style="list-style-type: none"> • Access the Fund website. • Complete the application online. • The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution account identified on your account application. The account opening amount is limited to \$100,000 (if you would like to invest more than \$100,000, you may make the investment by check or wire). 	<p>By Internet</p> <ul style="list-style-type: none"> • Log on to your account from the Fund website. • Select the “Purchase” option under the “Account Listing” menu. • Follow the instructions provided. • The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution account identified on your account application. Subsequent purchases are limited to \$100,000 per day (if you would like to invest more than \$100,000, you may make the investment by check or wire).

Systematic Investments. You may establish a systematic investment plan to automatically invest a specific amount of money (up to \$100,000 per day) into your account on a specified day and frequency not to exceed two investments per month. Payments for systematic investments are automatically debited from your designated savings or checking account via ACH. Systematic investments must be for at least \$200 per occurrence. If you wish to enroll in a systematic investment plan, complete the appropriate section on the account application. Your signed account application must be

received at least three business days prior to the initial transaction. The Fund may terminate or modify this privilege at any time. You may terminate your participation in a systematic investment plan by notifying the Fund at least two days in advance of the next withdrawal.

A systematic investment plan is a method of using dollar cost averaging as an investment strategy that involves investing a fixed amount of money at regular time intervals. However, a program of regular investment cannot ensure a profit or protect against a loss as a result of declining markets. By continually investing the same amount, you will be purchasing more shares when the price is lower and fewer shares when the price is higher. Please call (855) 422-4518 (toll free) for additional information regarding systematic investment plans.

Frequent Trading. Frequent trading by a Fund shareholder may pose risks to other shareholders in the Fund, including (1) the dilution of the Fund's NAV, (2) an increase in the Fund's expenses, and (3) interference with the portfolio manager's ability to execute efficient investment strategies. Because of the nature of the Fund's investments in highly-liquid securities, the Adviser believes that the Fund's portfolio generally will not be attractive to frequent traders or susceptible to market timing. Accordingly, the Board has not adopted a policy to monitor for frequent purchases and redemptions of Fund shares.

The Fund reserves the right to refuse any purchase requests, particularly those requests that could adversely affect the Fund or its operations.

Canceled or Failed Payments. The Fund accepts checks and ACH payments at full value subject to collection. If the Fund does not receive your payment for shares or you pay with a check or ACH payment that does not clear, your purchase will be canceled within two business days of notification from your bank that your funds did not clear. You will be responsible for any actual losses and expenses incurred by the Fund or the transfer agent. The Fund and its agents have the right to reject or cancel any purchase request due to non-payment.

Selling Shares

Redemption orders received in good order will be processed at the next calculated NAV. The Fund typically expects to pay shareholder redemption requests, including during stressed market conditions, within one business day of receipt of the request in good order, and may seek to meet such redemption requests through one or more of the following methods: sales of portfolio assets, use of cash or cash equivalents held in the Fund's portfolio, and/or redemptions in-kind, as permitted by applicable rules and regulations. The right of redemption may not be suspended for more than seven days after the tender of Fund shares, except for any period during which (1) the NYSE is closed (other than customary weekend and holiday closings) or the Securities and Exchange Commission (the "SEC") determines that trading thereon is restricted, (2) an emergency (as determined by the SEC) exists as a result of which disposal by the Fund of its securities is not reasonably practicable or as a result of which it is not reasonably practicable for the Fund to determine fairly the value of its net assets, or (3) the SEC has entered a suspension order for the protection of the shareholders of the Fund.

The Fund will not issue shares until payment is received. If redemption is sought for shares for which payment has not been received, the Fund will delay sending redemption proceeds until payment is received, which may be up to 15 calendar days.

How to Sell Shares from Your Account

Through a Financial Intermediary

- If you purchased shares through your financial intermediary, your redemption order must be placed through the same financial intermediary.

By Mail

- Prepare a written request including:

How to Sell Shares from Your Account

- your name(s) and signature(s);
 - your account number;
 - the Fund name ;
 - the dollar amount or number of shares you want to sell;
 - how and where to send the redemption proceeds;
 - a Medallion Signature Guarantee (if required); and
 - other documentation (if required).
- Mail the Fund your request and documentation.

By Telephone

- Call the Fund with your request, unless you declined telephone redemption privileges on your account application.
- Provide the following information:
 - your account number;
 - the exact name(s) in which the account is registered; and
 - additional form of identification.
- Redemption proceeds will be mailed to you by check or electronically credited to your account at the U.S. financial institution identified on your account application.

By Systematic Withdrawal

- Complete the systematic withdrawal section of the application.
- Attach a voided check to your application.
- Mail the completed application to the Fund.
- Redemption proceeds will be mailed to you by check or electronically credited to your account at the U.S. financial institution identified on your account application.

By Internet

- Log on to your account from the Fund website.
- Select the “Redemption” option under the “Account Listing” menu.
- Follow the instructions provided.
- Redemption proceeds will be electronically credited to your account at the U.S. financial institution identified on your account application.

Note: *The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, a deposit in the mail or with such services, or receipt at a post office box, of purchase orders or redemption requests does not constitute receipt by the Fund’s transfer agent. The date on which your order or request is received by the U.S. Postal Service or other independent delivery service is unlikely the date on which your transaction will be processed by the transfer agent. Further, the date on which your order or request is delivered to the post office box may not be the date on which your transaction is processed by the transfer agent.*

Wire Redemption Privileges. You may redeem your shares with proceeds payable by wire unless you declined wire redemption privileges on your account application. The minimum amount that may be redeemed by wire is \$5,000.

Telephone Redemption Privileges. You may redeem your shares by telephone, unless you declined telephone redemption privileges on your account application. You may be responsible for an unauthorized telephone redemption order as long as the transfer agent takes reasonable measures to verify that the order is genuine. Telephone redemption orders may be difficult to complete during periods of significant economic or market activity. If you are not able to reach the Fund by telephone, you may mail us your redemption order.

Systematic Withdrawals. You may establish a systematic withdrawal plan to automatically redeem a specific amount of money or shares from your account on a specified day and frequency not to exceed one withdrawal per month. Payments for systematic withdrawals are sent by check to your address of record, or if you so designate, to your bank account by ACH payment. To establish a systematic withdrawal plan, complete the systematic withdrawal section of the account application. The plan may be terminated or modified by a shareholder or the Fund at any time without charge or penalty.

You may terminate your participation in a systematic withdrawal plan at any time by contacting the Fund sufficiently in advance of the next withdrawal.

A withdrawal under a systematic withdrawal plan involves a redemption of Fund shares and may result in a gain or loss for federal income tax purposes. Please call (855) 422-4518 (toll free) for additional information regarding systematic withdrawal plans.

Signature Guarantee Requirements. To protect you and the Fund against fraud, signatures on certain requests must have a Medallion Signature Guarantee. A Medallion Signature Guarantee verifies the authenticity of your signature. You may obtain a Medallion Signature Guarantee from most banking institutions or securities brokers but not from a notary public. Written instructions signed by all registered shareholders with a Medallion Signature Guarantee for each shareholder are required for any of the following:

- written requests to redeem \$100,000 or more;
- changes to a shareholder’s record name or account registration;
- paying redemption proceeds from an account for which the address has changed within the last 30 days;
- sending redemption and distribution proceeds to any person, address or financial institution account not on record;
- sending redemption and distribution proceeds to an account with a different registration (name or ownership) from your account; and
- adding or changing ACH or wire instructions, the telephone redemption or any other election in connection with your account.

The Fund reserves the right to require Medallion Signature Guarantees on all redemptions.

Small Account Balances. If the value of your account falls below the minimum account balances in the following table, the Fund may ask you to increase your balance. If the account value is still below the minimum balance after 60 days, the Fund may close your account and send you the proceeds. The Fund will not close your account if it falls below these amounts solely as a result of Fund performance.

Minimum Account Balance	Institutional Shares	Investor Shares
Standard Accounts	\$100,000	\$2,500
Retirement Accounts	\$100,000	\$2,500

Redemptions in Kind. Redemption proceeds normally are paid in cash. Consistent with an election filed with the SEC, under certain circumstances, the Fund may pay redemption proceeds in portfolio securities rather than in cash pursuant to procedures adopted by the Board. However, if the Fund redeems shares in this manner, the shareholder assumes the risk of, among other things, a subsequent change in the market value of those securities and the costs of liquidating the securities (such as brokerage costs). In kind redemptions may be satisfied using illiquid securities held in the Fund’s portfolio, in which case the shareholder will assume the risks associated with such illiquid securities, including the possibility of a lack of a liquid market for those securities. In-kind redemptions may take the form of a pro rata portion of the Fund’s portfolio, individual securities, or a representative basket of securities. Please see the SAI for more details on redemptions in kind.

Lost Accounts. The transfer agent will consider your account lost if correspondence to your address of record is returned as undeliverable on two consecutive occasions, unless the transfer agent determines your new address. When an account is lost, all distributions on the account will be reinvested in additional shares of the Fund. In addition, the amount of any outstanding check (unpaid for six months or more) and checks that have been returned to the transfer agent may be reinvested at the current NAV, and the checks will be canceled. However, checks will not be reinvested into accounts with a zero balance but will be held in a different account. Any of your unclaimed property may be transferred to the state of your last known address if no activity occurs in your account within the time period specified by that state’s law.

Distribution and Shareholder Service Fees. The Trust has adopted a Rule 12b-1 plan under which the Fund pays the Distributor a fee up to 0.25% of the average daily net assets of Investor Shares for distribution services and/or the servicing of shareholder accounts.

Because the Investor Shares may pay distribution fees on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. The Distributor may pay any fee received under the Rule 12b-1 plan to the Adviser or other financial intermediaries that provide distribution and shareholder services with respect to Investor Shares.

In addition to paying fees under the Rule 12b-1 plan, the Fund may pay service fees to financial intermediaries for administration, recordkeeping and other shareholder services associated with shareholders whose shares are held of record in omnibus accounts, other group accounts or accounts traded through registered securities clearing agents. If the Fund pays shareholder service fees on an ongoing basis, over time these fees will increase the cost of your investment.

Exchanging Shares

You may exchange Fund shares for shares of other ABR Dynamic Funds. For a list of funds available for exchange, call the transfer agent. Be sure to confirm with the transfer agent that the Fund into which you exchange is available for sale in your jurisdiction. Funds available for exchange may not be available for purchase in your jurisdiction. Because exchanges are a sale and purchase of shares, they may have tax consequences.

Requirements. You may make exchanges only between identically registered accounts (name(s), address, and taxpayer ID number). There is no limit on exchanges, but the Fund reserves the right to limit exchanges. You may exchange your shares by mail or telephone, unless you declined telephone redemption privileges on your account application. You may be responsible for any unauthorized telephone exchange order as long as the transfer agent takes reasonable measures to verify that the order is genuine.

How to Exchange

Through a Financial Intermediary

- Contact your financial intermediary by the method that is most convenient for you.

By Mail

- Prepare a written request including:
 - your name(s) and signature(s);
 - your account number;
 - the name of the Fund you are exchanging;
 - the dollar amount or number of shares you want to sell (and exchange);
 - a Medallion Signature Guarantee (if required); and
 - other documentation (if required).
- Complete a new account application if you are requesting different shareholder privileges in the Fund into which you are exchanging.
- Mail the Fund your request and documentation.

By Telephone

- Call the Fund with your request, unless you declined telephone redemption privileges on your account application.
- Provide the following information:
 - your account number;
 - exact name(s) in which the account is registered; and
 - additional form of identification.

By Internet

- Logon to your account from the Fund website.
- Select the “Exchange” option under the “Account Listing” menu.
- Follow the instructions provided.

Retirement Accounts

You may invest in shares of the Fund through an IRA, including traditional and Roth IRAs, also known as a “Qualified Retirement Account.” The Fund may also be appropriate for other retirement plans, such as 401(k) plans. Before investing in an IRA or other retirement account, you should consult your tax advisor. Whenever making an investment in an IRA or certain retirement plans, be sure to indicate the year to which the contribution is attributed.

OTHER INFORMATION

Distributions and Dividend Reinvestments. The Fund declares dividends from net investment income and pays them annually. Any net capital gains realized by the Fund are distributed at least annually. The Fund may distribute such income dividends and capital gains more frequently, if necessary, in order to reduce or eliminate federal excise or income taxes on the Fund. The amount of any distribution will vary, and there is no guarantee the Fund will pay either an income dividend or a capital gains distribution.

Most investors typically have their income dividends and capital gain distributions (each a “distribution”) reinvested in additional shares of the distributing class of the Fund. If you choose this option, or if you do not indicate any choice, your distributions will be reinvested. Alternatively, you may choose to have your distributions of \$10 or more sent directly to your bank account or paid to you by check. However, if a distribution is less than \$10, your proceeds will be reinvested. If five or more of your distribution checks remain uncashed after 180 days, all subsequent distributions may be reinvested. For federal income tax purposes, distributions to non-qualified retirement accounts are treated the same whether they are received in cash or reinvested.

Annual Statements. Each year, the Fund will send you an annual statement (Form 1099) of your account activity to assist you in completing your federal, state and local tax returns. Distributions declared in December to shareholders of record in such month, but paid in January, are taxable as if they were paid in December. Prior to issuing your statement, the Fund makes every effort to reduce the number of corrected forms mailed to you. However, if the Fund finds it necessary to reclassify its distributions or adjust the cost basis of any Covered Shares (defined below) sold or exchanged after you receive your tax statement, the Fund will send you a corrected Form 1099.

Taxes. The Fund has elected and intends to qualify each year as a regulated investment company and, as such, generally is not subject to entity level tax on the income and gain it distributes to shareholders. The Fund intends to operate in a manner such that it will not be liable for federal income or excise taxes.

The Fund’s distributions of net investment income and the excess of net short-term capital gain over net long-term capital loss are taxable to you as ordinary income, except as noted below. The Fund’s distributions of net capital gain (that is, the excess of net long-term capital gain over net short-term capital loss), if any, are taxable to you as long-term capital gain, regardless of how long you have held your shares. Distributions also may be subject to state and local income taxes. Some Fund distributions also may include a nontaxable return of capital. Return of capital distributions reduce your tax basis in your Fund shares and are treated as gain from the sale of the shares to the extent they exceed your basis.

The Fund expects, based on its investment objective and strategies, that its distributions, if any, will be taxable as ordinary income, capital gains, or some combination of both. This is true whether you reinvest your distributions in additional Fund shares or receive them in cash.

The use of derivatives by a Fund may cause the Fund to realize higher amounts of ordinary income or short-term capital gain, distributions from which are taxable to individual shareholders at ordinary income tax rates rather than at the more favorable tax rates for long-term capital gain.

The Fund’s dividends attributable to its “qualified dividend income” (*i.e.*, dividends received on stock of most domestic and certain foreign corporations with respect to which the Fund satisfies certain holding period and other restrictions) generally will be subject to federal income tax for individual and certain other non-corporate shareholders who satisfy those restrictions with respect to their Fund shares at the rates for net capital gain – a maximum rate of 15% or 20%, depending on a shareholder’s level of taxable income and the shareholder’s filing status. A portion of the Fund’s dividends also may be eligible for the dividends-received deduction allowed to corporations. The eligible portion may not exceed the aggregate dividends the Fund receives from domestic corporations subject to federal income tax (thus excluding real estate investment trusts) and excludes dividends from foreign corporations – subject to similar restrictions.

At the time you purchase your Fund shares, the Fund’s NAV may reflect undistributed income, undistributed capital gains, or net unrealized appreciation in the value of portfolio securities held by the Fund. For taxable investors, a

subsequent distribution to you of such amounts, although constituting a return of your investment, would be taxable. A distribution reduces the NAV of Fund shares by the amount of the distribution.

The sale (redemption) of Fund shares is generally taxable for federal income tax purposes. You will recognize a gain or loss on the transaction equal to the difference, if any, between the amount of your net redemption proceeds and your tax basis in the redeemed Fund shares. The gain or loss will be capital gain or loss if you held your Fund shares as capital assets. Any capital gain or loss will be treated as long-term capital gain or loss if you held the Fund shares for more than one year at the time of the redemption and any such gain may be taxed to individual and certain other non-corporate shareholders. Long-term capital gain rates applicable to individuals are taxed at the 15% or 20% maximum federal income tax rates mentioned above or 25% depending on the nature of the capital gain. Any capital loss arising from the redemption of Fund shares held for six months or less, however, will be treated as long-term capital loss to the extent of the amount of net capital gain distributions with respect to those shares.

The Fund is required to withhold federal income tax at the rate of 24% on all distributions and redemption proceeds (regardless of the extent to which you realize gain or loss) otherwise payable to you (if you are an individual or certain other non-corporate shareholder) if you fail to provide the Fund with your correct TIN or to make required certifications, or if you have been notified by the Internal Revenue Service (“IRS”) that you are subject to backup withholding. Backup withholding is not an additional tax, and any amounts withheld may be credited against your federal income tax liability once you provide the required information or certification.

Fund distributions and gains from the sale or exchange of your Fund shares generally are subject to state and local taxes.

The Fund (or its administrative agent) is required to report to you and the IRS annually on Form 1099-B not only the gross proceeds of Fund shares you sell or redeem but also the cost basis of Fund shares you sell or redeem where the cost basis of the shares is known by the Fund (“Covered Shares”). Cost basis will be calculated using the Fund’s default method, which is first-in first-out, unless you instruct the Fund in writing to use a different acceptable method for basis determination (e.g., average basis or specific identification method). The basis determination method a Fund shareholder elects may not be changed with respect to a redemption of Covered Shares after the settlement date of the redemption. Fund shareholders should consult with their tax advisors to determine the best IRS-accepted basis determination method for their tax situation and to obtain more information about how the basis reporting law applies to them.

An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Fund shares) of U.S. individuals, estates and trusts to the extent that such person’s “modified adjusted gross income” (in the case of an individual) or “adjusted gross income” (in the case of an estate or trust) exceeds a threshold amount. This tax, if applicable, is reported by you on, and paid with, your federal income tax return and is in addition to any other taxes due on the income described in this paragraph. Shareholders should consult their own tax advisors regarding the effect, if any, this provision may have on their investment in Fund shares.

Fund shares are generally not sold outside the United States. Non-U.S. investors should be aware that U.S. withholding at a 30% or lower treaty tax rate, special tax certification requirements to avoid U.S. backup withholding and claim any treaty benefits, and U.S. estate taxes, may apply to any investment in the Fund.

For further information about the tax effects of investing in the Fund, please see the SAI.

This discussion of distributions and taxes is not intended or written to be used as tax advice. Because everyone’s tax situation is unique, you should consult your tax professional about federal, state, local, or foreign tax consequences before making an investment in the Fund.

Organization. The Trust is a Delaware statutory trust, and the Fund is a series thereof. The Fund does not expect to hold shareholders’ meetings unless required by federal or Delaware law. Shareholders of each series of the Trust are entitled

to vote at shareholders' meetings unless a matter relates only to a specific series (such as the approval of an advisory agreement for the Fund). From time to time, large shareholders may control the Fund or the Trust.

Additional Information. The Trust enters into contractual arrangements with various parties, including, among others, the Fund's Adviser, Subadviser(s) (if applicable), custodian, principal underwriter and transfer agent who provide services to the Fund. Shareholders are not parties to any such contractual arrangements or intended beneficiaries of those contractual arrangements, and those contractual arrangements are not intended to create in any shareholder any right to enforce them against the service providers or to seek any remedy under them against the service providers, either directly or on behalf of the Trust.

This Prospectus provides information concerning the Fund that you should consider in determining whether to purchase Fund shares. Neither this Prospectus, the SAI nor any other communication to shareholders is intended, or should be read, to be or give rise to an agreement or contract between the Trust, its trustees or any series of the Trust, including the Fund, and any investor, or to give rise to any rights in any shareholder or other person other than any rights under federal or state law that may not be waived.

FINANCIAL HIGHLIGHTS

Financial Highlights are not provided because, as of the date of this Prospectus, the Fund had not yet completed its first fiscal year.

FACTS

Rev. 6/13

WHAT DOES THE ABR DYNAMIC FUNDS DO WITH YOUR PERSONAL INFORMATION?**Why?**

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depend on the product or service you have with us. This information can include:

- Social Security number and
- Account balances and
- Account transactions and
- Checking account information and
- Retirement assets and
- Wire transfer instructions.

When you are *no longer* our customer, we continue to share your information as described in this notice.

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons the ABR Dynamic Funds chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does the ABR Dynamic Funds share?	Can you limit this sharing?
For our everyday business purposes- such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes- to offer our products and services to you	No	We do not share
For joint marketing with other financial companies	No	We do not share
For our affiliates' everyday business purposes- information about your transactions and experiences	No	We do not share
For our affiliates' everyday business purposes- information about your credit worthiness	No	We do not share
For non-affiliates to market to you	No	We do not share
